

Reagan Bhatia

GenAI Product Engineering Lead

📞 (704) 555-1234 ✉️ reagan.bhatia@email.com 🔗 linkedin.com/in/reaganbhatia 📍 1234 Elm Street, Charlotte, NC 28202

SUMMARY

Dynamic engineering lead with over 12 years managing AI/ML applications and teams. Expertise in creating secure solutions that drive project success is notable. In past roles, actively guided developers on best practices for cloud architecture and full-stack development. Known for collaboration with cross-functional teams to ensure delivery of high-quality applications. Enthusiastic about leveraging skills to boost innovation at Innovative Tech Solutions while mentoring future leaders in technology and product development.

EXPERIENCE

Senior Software Engineer

Tech Innovators Inc. 📅 January 2020 - Present 📍 Charlotte, NC

Managed diverse teams developing secure, multi-tenant AI applications. Led development using React and TypeScript, improving user interface dynamics. Championed CI/CD practices streamlining deployment for reliability.

- Designed dynamic user interfaces tailored for optimal user experiences.
- Implemented security measures ensuring compliance across all projects.
- Directed a team of engineers enhancing application features and performance.
- Evaluated emerging technologies creating efficient workflows within the engineering team.

Mid-Level Software Engineer

AI Solutions Corp. 📅 June 2016 - December 2019 📍 Atlanta, GA

Developed full-stack applications centered around security and compliance. Worked alongside multidisciplinary teams delivering innovative AI/ML solutions optimizing processes.

- Integrated TensorFlow into existing frameworks aiding feature enhancement.
- Supported project management aligning deliverables with organizational goals.
- Drafted standard operating procedures focusing on software security principles.
- Participated in agile sprint meetings ensuring focus on end-user satisfaction.

Software Engineer

DataDriven Technologies 📅 April 2014 - May 2016 📍 Orlando, FL

Contributed significantly to the design of processing systems utilizing scalable microservices architectures. Collaborated effectively gathering requirements from key stakeholders leading to project successes.

- Executed data flow improvements enhancing overall process accessibility.
- Liaised with clients to translate business needs into technical solutions.
- Helped establish dev protocols focused on maximizing system efficiencies.
- Ensured timely delivery of project milestones through rigorous testing practices.

LEADERSHIP & AWARDS

- AWS Certified Solutions Architect, 2022
- Certified Kubernetes Administrator (CKA), 2021

EDUCATION

Bachelor's Degree in Computer Science

University of North Carolina 🎓 GPA: 3.8 📅 2014 📍 Chapel Hill, NC

Coursework: Data Structures, Algorithms, Software Engineering, Cloud Computing

CERTIFICATIONS

- Certified Kubernetes Administrator (CKA) 📅 2021
- AWS Certified Solutions Architect 📅 2022

TECHNICAL SKILLS

- **AI Frameworks:** TensorFlow, PyTorch, Scikit-learn
- **Frontend Technologies:** React, Vue.js, Angular
- **Database Technologies:** MySQL, PostgreSQL, MongoDB

- **Cloud Services:** AWS, Azure, Google Cloud
- **Version Control:** Git, GitHub, Bitbucket
- **Containerization:** Docker, Kubernetes, OpenShift
- **Development Methodologies:** Agile, Scrum, DevOps
- **Communication Tools:** Slack, Microsoft Teams, Zoom
- **Testing Frameworks:** JUnit, Selenium, Jest
- **Monitoring Tools:** Prometheus, Grafana, Splunk

SKILLS

- AI/ML Development
- Python
- React
- TypeScript
- Full Stack Development
- Cloud Architecture
- Agile Methodologies
- Security Best Practices
- Mentorship
- Team Collaboration
- Microservices
- CI/CD
- Data Processing
- Frontend Development
- Backend Development

PROFESSIONAL AFFILIATIONS

- Member, Association for Computing Machinery (ACM)
- Volunteer, Tech for Good Initiative

LANGUAGES

- English (Native)
- Spanish (Proficient)
