EXPERIENCE

Student Accounting Assistant
University Research Lab

January 2025 - Present
Providence, RI

Supporting financial management for university projects focusing on accurate record keeping, budgeting analysis, and procedural enhancements.

- Assisted maintaining precise financial documentation for multiple research projects, organizing receipts and invoices systematically.
- Collaborated closely with faculty members to prepare and analyze budgeting reports, supporting departmental decision-making.
- Developed an efficient tracking system for cash handling, ensuring deposits were processed timely while reconciling accounts consistently.
- Conducted thorough monthly audits of financial documents, promptly identifying discrepancies and proposing effective solutions.
- Created user-friendly spreadsheets summarizing financial data, enhancing accessibility and clarity for stakeholders.
- Contributed significantly during grant applications by arranging detailed financial documentation.

Capstone Project Developer
Student Innovation Lab

September 2024 - December 2024
Providence, RI

Led initiatives to develop a financial tracking application, focusing on improving data management for student-led projects.

- Spearheaded development of a financial tracking app streamlining data entry and reporting for student initiatives effectively.
- Engaged in coding and testing phases utilizing Excel alongside programming languages to assure intended functionality.
- Presented outcomes and findings enthusiastically to peers and faculty, receiving accolades for attention to detail and clarity of presentation.
- Conducted user requirement analysis and integrated peer feedback into the project for ongoing enhancement.
- Collaborated actively within a team to draft comprehensive documentation outlining project processes and financial guidelines.

- Demonstrated robust project management capabilities by adhering diligently to scheduled deadlines while engaging stakeholders productively.

Financial Data Analyst

Academic Research

June 2023 - August 2024
Providence, RI

- Analyzed complex financial datasets supporting university research projects, ensuring alignment with academic objectives.
- Performed extensive financial analysis, contributing essential insights for various university-sponsored research projects.
 - Compiled and safeguarded databases holding critical financial records, affirming data integrity throughout.
 - Assisted thoroughly in crafting robust financial reports elucidating key findings for comprehensive research presentations.
 - Collaborated dynamically with faculty to adapt financial procedures aligning with overarching research goals, improving operational effectiveness.
 - Engineered automated data entry solutions decreasing errors and saving valuable time across research teams.
 - Gained hands-on experience working extensively with advanced financial software applications and data management systems.
