SUMMARY

Detail-oriented General Production Worker with over 2 years of experience in manufacturing environments. Proven track record in operating machinery, adhering to safety protocols, and conducting quality control inspections. Skilled in interpreting blueprints and performing routine maintenance to ensure optimal machinery performance. Committed to maintaining accurate documentation while fostering a safe and efficient workplace. Eager to contribute skills in a dynamic production setting, focused on excellence in manufacturing operations and teamwork.

STRENGTHS

- ✓ **Attention to Detail**
Successfully passed multiple quality audits, earning recognition as a reliable resource for inspection.
- ⚙️ **Adaptability**
Excelled in cross-training initiatives, seamlessly shifting between roles in production when needed.
- 🕒 **Time Management**
Effectively managed workload, consistently finishing production runs ahead of deadlines without compromising quality.
- 👥 **Team Collaboration**
Regularly collaborated with and trained new hires, strengthening team performance and unity.
- ✂️ **Problem Solving**
Identified potential mechanical issues proactively, which improved machine uptime significantly.

SKILLS

- Machine Operation
- Blueprint Interpretation
- Quality Control
- Inventory Management
- Safety Protocols
- Preventive Maintenance
- Mechanical Ability Teamwork
- Documentation Skills
- Time Management

EXPERIENCE

General Production Worker

Innovative Manufacturing Solutions 📅 May 2025 - Present 📍 Clark, NJ

Support production efforts in a fast-paced environment by operating machinery for precision sheet metal components. Promote adherence to safety protocols while inspecting parts for quality assurance. Collaborate with team members to streamline processes and enhance efficiency.

- Operate machinery efficiently to manufacture high-quality sheet metal components, ensuring compliance with strict standards.
- Inspect finished products regularly during all phases of production, achieving significant accuracy in meeting specifications.
- Interpret blueprints effectively, translating requirements into action to reduce errors in the production process.
- Conduct preventive maintenance on machinery, ensuring operational reliability and safety for all personnel.
- Manage inventory meticulously, tracking materials and supplies needed for production, enabling continuous workflow.
- Document all production activities and maintenance procedures meticulously, enhancing overall transparency and accountability.

Production Associate

Steelcraft Industries 📅 June 2024 - April 2025 📍 Hightstown, NJ

Assisted in assembly line operations within a respected manufacturing setting, contributing to the manufacture of precision metal parts. Developed hands-on skills in machinery operation and embraced responsibilities surrounding safety and quality.

- Supported assembly and production of metal parts by adhering strictly to safety protocols and quality checks.
- Utilized basic tools and tape measures to guarantee detailed accuracy in part measurements and assembly outputs.
- Collaborated well with team members, driving an organized work environment that optimized efficiency.
- Monitored production flows diligently, reporting any inconsistencies or challenges in real-time to facilitate swift resolutions.
- Engaged in ongoing cross-training initiatives, increasing exposure to diverse tasks within the production line.
- Participated actively in daily meetings emphasizing safety, driving workplace awareness among peers.

LEADERSHIP & AWARDS

- OSHA Safety Award – Recognized for commitment to maintaining a safe workplace and promoting safety best practices.
- Employee of the Month – Honored for outstanding dedication and teamwork within the department.

MY CAREER

- General Production Worker at Innovative Manufacturing Solutions (1.2 Years)
- Production Associate at Steelcraft Industries (10 Months)

EDUCATION

High School Diploma

Trenton High School 🎓 GPA: N/A 📅 2024 📍 Trenton, NJ

Coursework: General Education, Mathematics, Science, Industrial Arts

CERTIFICATIONS

- OSHA 10-Hour General Industry Certification 📅 2025
- Forklift Operator Certification 📅 2025

TECHNICAL SKILLS

- **Machinery Operations:** CNC Machines, Welding Equipment, Press Brakes
- **Quality Control Tools:** Calipers, Micrometers, Gauges
- **Maintenance Techniques:** Lubrication, Calibration, Adjustments
- **Safety Standards:** OSHA Compliance, Personal Protective Equipment, Safety Inspections
- **Manufacturing Processes:** Assembly Line, Lean Manufacturing, Just-in-Time
- **Inventory Systems:** FIFO Method, ERP Software, Stock Audits
- **Documentation Practices:** Production Logs, Maintenance Records, Work Orders
- **Team Training:** Onboarding New Hires, Skill Diversification, Safety Training
- **Tools & Equipment:** Hand Tools, Power Tools, Measuring Instruments
- **Blueprint Reading:** Technical Drawings, Reference Schematics, Assembly Instructions

PROFESSIONAL AFFILIATIONS

- Member of the National Association of Manufacturers, engaging in local events and training.
- Volunteer at local community workshops teaching youth about machine safety and manufacturing basics.
