JULY 03, 2026

Chase
Global Corporate Banking
Chicago, IL

Dear Chase Hiring Team,

I am excited to express my enthusiasm for the Global Corporate Banking Summer Analyst Program at Chase. This opportunity aligns seamlessly with my academic journey and aspirations, especially given my proactive engagement in financial modeling and market analysis.

Chase exemplifies innovation and excellence, crafting transformative financial solutions while navigating the intricate webs of corporate finance—an arena in which I aspire to contribute. Leveraging insights gained from collaborative projects and research initiatives, I am prepared to engage actively in executing transactions and developing marketing materials. Such experiences have been pivotal in shaping my analytical abilities and fostering my passion for finance.

In my recent role as a Financial Analyst Intern, I faced challenges, such as creating complex financial models while ensuring utmost clarity and precision. Through collaboration and diligence, our team produced impactful reports that captured intricate market dynamics and financing strategies. Such achievements illuminated my path toward growth within finance, reflecting both resilience and determination.

In addition to my academic credentials, I served as President of the Finance Club, where I rallied fellow students around diverse financial topics. This role taught me the importance of teamwork and clear communication, both of which are essential for the collaborative environment at Chase.

I am eager to bring my skills and enthusiasm to Chase, as I cultivate connections with senior management while contributing to impactful financial solutions. I look forward to the possibility of discussing how my background fits within your dynamic team.

Thank you for your consideration.

Sincerely,

Thao Walton
