SUMMARY

Passionate culinary professional with over four years of experience in food preparation, engaging with customers effectively. Skillful in creating appealing dishes while adhering to high safety and sanitation standards. Committed to enhancing dining experiences through exceptional service, teamwork, and continuous learning in fast-paced environments. Demonstrated capabilities in developing diverse menus and managing kitchen operations efficiently. Eager to contribute to Stryker South Cafe with innovative ideas that create memorable dining moments for patrons. Emphasizes collaboration with team members to ensure the highest quality and customer satisfaction.

EXPERIENCE

Culinary Arts Project Developer

University Project  January 2025 – May 2026  Kalamazoo, MI

- Unique experience coordinating culinary projects, menu development, and event planning. Collaborated closely with peers to execute an array of dishes at campus events, ensuring quality standards in preparation and presentation. Cultivated relationships with diverse stakeholders throughout processes, enhancing overall project success.
- Developed a comprehensive menu for campus events, focusing on sustainable and local ingredients.
 - Executed food preparation and serving, maintaining compliance with health regulations and beautifying plate aesthetics.
 - Managed inventory systems to optimize resources and reduce waste during preparation.
 - Conducted training sessions on proper food handling techniques, promoting safety practices within teams.
 - Gathered feedback from guests post-event, utilizing insights to enhance future menu offerings.
 - Fostering community spirit by engaging attendees to understand their preferences, reinforcing dining quality.

Food Safety Research Assistant

University Research Lab  September 2023 – December 2024  Kalamazoo, MI

- Engaged in analytical research focused on food safety, aiming to advance knowledge significantly in institutional settings. Leveraged rigorous methodologies to assess risks associated with foodborne pathogens in prepared dishes, providing educational support for improved safety protocols.
- Conducted multiple experiments testing cleaning agent efficacy on surfaces typically found in kitchens.
 - Compiled extensive data sets related to food safety, culminating in published articles contributing to industry knowledge.
 - Assisted faculty members in producing materials aimed at educating local populations about safe cooking habits.
 - Participated actively in workshops addressing relevant food safety laws which enhanced personal awareness.
 - Worked collaboratively with teams toward outreach strategies educating significant health topics effectively.
 - Contributed ideas in brainstorming sessions aimed at improving local food offerings through safer practices.

LEADERSHIP & AWARDS

- Recipient of Student Chef Award for exceptional dish presentation, May 2025.
- Led team project recognized for innovative menu design, April 2024.
