SUMMARY

Compassionate Registered Nurse with over 2 years in home health care, specializing in OASIS and Medicare-certified visits. Proven ability to document effectively through electronic charting systems, developing individualized care plans based on comprehensive patient assessments. Skilled at building rapport with patients and their families, consistently fostering high standards of care. Committed to ongoing learning within dynamic healthcare environments and improving patient outcomes through effective coordination among interdisciplinary teams. Collaboration with key stakeholders ensured a seamless provision of quality care while achieving high patient satisfaction.

EXPERIENCE

Home Health RN

CareBridge Health Services 📅 June 2025 - Present 📍 Chicago, IL

Overseeing patient care in home settings, coordinating strategies that align with OASIS standards. Strong focus on delivering education, facilitating partnerships, and optimizing care for diverse populations.

- Implemented structured patient assessments leading to tailored care plans that improve recovery trajectories.
- Streamlined documentation processes using EHR systems, boosting communication across multidisciplinary teams.
- Maintained responsibility for a diverse caseload of 25 patients, enhancing care continuity via systematic follow-ups and adjustments.
- Created educational resources for patients and families, ensuring clarity in managing health conditions.
- Collaborated directly with physicians to adapt care plans based on evolving patient needs, thereby elevating treatment effectiveness.
- Achieved over 90% patient satisfaction ratings, attributed to personalized care approaches and active listening.

Registered Nurse

HealthFirst Nursing 📅 January 2025 - May 2025 📍 Evanston, IL

Focused on providing comprehensive care to patients needing rehabilitation post-discharge, emphasizing collaboration and clinical excellence.

- Assessed patient progress continuously, adjusting medication and treatments based on observations and evaluations.
- Developed training sessions for new staff on home health practices, promoting best practices in OASIS documentation.
- Enhanced infection control measures, explicitly focusing on compliance with health protocols.
- Engaged in community-based outreach projects aimed at raising awareness regarding home health services available.
- Participated in the development of care procedures which standardized performance metrics across nursing teams.
- Fostered strong relations with team members, reflecting in improved teamwork and peer collaborations.
