SUMMARY

Passionate Registered Nurse with three years of enriching experiences in home health settings. Skilled in developing personalized care plans and delivering compassionate patient care to enhance comfort and wellbeing. Strong ability for critical thinking allows for effective problem-solving during patient assessments and care management. Consistent commitment to maintaining accurate documentation adheres to compliance standards. Collaborative team member recognized for building productive relationships within interdisciplinary teams and implementing comprehensive health education for families. Eager to contribute skills in a dynamic environment that values growth and quality patient care.

EXPERIENCE

Nursing Assistant

June 2025 - Present

University Research Lab

Chicago, IL

Supportive nursing role focusing on enhancing patient experience within home health care. Conducted thorough assessments and developed individualized patient care strategies. Collaboratory efforts with healthcare professionals aimed at improving overall service delivery while ensuring adherence to protocols.

- Delivered compassionate support to patients, strengthening their comfort through attentive care during visits.
- Documented vital signs and key health concerns to aid interdisciplinary team decisions effectively.
- Functioned prettily as a part of diverse teams to craft tailored care plans responsive to patient needs.
- Educated patients and families on managing medications, drastically enhancing post-discharge outcomes.
- Maintained compliant EMR documentation practices to uphold the highest quality of care.
- Engaged in ongoing training, reinforcing clinical capabilities and knowledge pertinent to home healthcare.

Capstone Project Developer

August 2024 - May 2025

Healthcare Simulation Center

Chicago, IL

Innovative student project designed and executed at a dedicated simulation center, aimed toward bridging theoretical knowledge with practical application in healthcare settings. Involvement in providing experiential learning for aspiring nurses, enriching understanding of real-world scenarios.

- Crafted comprehensive health scenario simulations promising detailed engagement for nursing students navigating patient interactions.
- Utilized foundational evidence-based practices to create educational content advantageous for peer learners.
- Analyzed participant evaluations yielding actionable insights for reinforcing educational outcomes.
- Iteratively resourced peer feedback ensured project dynamics were continually reflective of participant experiences.
- Presented impactful findings during annual conferences; recognized for outstanding contributions to nursing education.
- Cultivated close collaboration among faculty and peers, promoting unified best practices in patient care methodologies.

Student Nurse Intern

January 2024 - May 2024

Community Health Clinic

Chicago, IL

Internship nestled in a community clinic, offering rich exposure to direct patient care under experienced guidance. This role focused on adhering to high health standards while integrating into treatment discussions.

- Administered patient care directly under the watchful eye of seasoned nurses, ensuring alignment with established health protocols.
- Assisted diligently in medication administration, monitoring reactions, thereby documenting insightful observations.
- Connected closely with patients, collecting health histories, while informing them about preventative measures crucial for timely interventions.
- Participated actively in multifaceted team meetings aimed at enhancing patient care strategies and operations.
- Supported implementation of community-oriented wellness programs directed at improving public health outlooks in local spheres.
- Celebrated for fostering positive patient rapport, emphasizing active listening to address interviewees' needs more effectively.
