Hiring Manager
Residential Home Health
State College, PA

Dear Hiring Manager,

I am excited to apply for the Hospice Certified Nursing Assistant role at Residential Home Health. This position aligns closely with my experience and passion for aiding patients in their homes, as well as my dedication to compassionate care that addresses daily living needs.

In my role at the University Research Lab, I worked collaboratively with healthcare teams to develop tailored care plans. We ensured both comfort and dignity were paramount. Every interaction counted, and I embraced the challenge of managing multiple patients efficiently while documenting care through EMR systems.

Compassion has driven my dedication in every task. I thrived in the Student Innovation Lab, where patient feedback fueled our desire for excellence. Training sessions further sharpened my skills, but the real learning came from those invaluable patient interactions.

Participating in team meetings was crucial for me. I valued contributions as we shared insights and improved our practices. The challenges we faced only strengthened our resolve to enhance the lives of those we served.

Joining Residential Home Health excites me. I foresee aligning my commitment to comfort with your mission of delivering outstanding care, fostering a collaborative spirit and honoring patients' dignity through their hospice experiences.

Thank you for considering my application.

Sincerely,

Charlee Aguilar
