SUMMARY

A dedicated technology enthusiast pursuing a Computer Science degree, eager to contribute as an Information Technology Intern at TechWave Innovations. Possesses over 2 years of customer support experience and excels in troubleshooting issues across platforms. Communities benefit from the commitment to enhancing service delivery and user satisfaction. Committed to learning about software solutions to streamline processes further. Captured attention through effective communication with users and detailed documentation of resolutions. Seeking to leverage hands-on experience in both Windows and Mac operating systems alongside administration tasks.

EXPERIENCE

IT Support Specialist

January 2025 - Present

TechSphere Solutions

Dayton, OH

Serves as IT Support Specialist responsible for maintaining technical stability within user environments. Focused on troubleshooting and providing timely resolutions for workstation and server-related issues. Works closely with teams to implement improvements and assist in technology upgrades for enhanced operations.

- Delivered comprehensive technical support to ensure quick resolution of hardware and software problems.
- Collaborated with various departments to facilitate system upgrades and new implementations.
- Created detailed documentation of support procedures to train users effectively.

IT Intern

June 2024 - December 2024

ByteTech Systems

Cleveland, OH

Gained practical experience at ByteTech Systems as an IT Intern. Helped provide end-user support and enhance technology platform functions while developing vital organizational skills. Engaged in direct communication with users to assess and address their needs.

- Provided front-line assistance to employees by resolving various tech-related inquiries.
- Assisted in the installation and upkeep of operating systems across multiple devices.
- Documented client interactions effectively to maintain service quality throughout all stages.

Technology Volunteer

January 2023 - May 2024

Local Community Center

Columbus, OH

Volunteered to enhance local community tech programs, facilitating youth digital literacy initiatives. Developed workshops designed to boost technology understanding among participants.

- Organized interactive sessions that walked participants through basic computer use.
- Developed engaging materials that simplified complex technological topics.
- Received appreciation from center management for significant boosts in attendance and engagement.

PROJECTS

Customer Support Protocol Automation 📅 May 2026

Tasked with automating several customer support protocols during practicum. Focused on streamlining incident resolution processes, resulting in better tracking of recurring issues and enhanced reporting.

Network Security Analysis Project 📅 December 2025

Executed a project to analyze and improve network security measures, identifying vulnerabilities and suggesting mitigation strategies bolstered cybersecurity awareness.

PORTFOLIO

Title: IT Projects Portfolio

Link: Remote
