SUMMARY

Early career insurance professional with supervised experience reviewing simulated auto injury claim files, **medical records**, incident reports, coverage details, and damages. Claims training has built practical skill in documentation, information analysis, customer communication, structured **decision making**, and organized case support. Classroom exercises and mentoring reviews have strengthened judgment around sensitive information, claimant updates, issue spotting, and fair resolution practices. Customer service practicum work added experience with prioritization, process notes, presentations, and respectful communication during sensitive situations. An Associate Degree in Business Administration and **Insurance Claims Fundamentals Certificate** support continued growth in claims work. Prepared to pursue **adjuster licensing**, learn established procedures, and contribute dependable support during training and supervised claim handling.

EXPERIENCE

Claims Apprentice Trainee

January 2026 - Present

Capstone Insurance Training Project

Austin, TX

Supports supervised claims training through simulated auto injury files, medical record review, coverage analysis, documentation practice, classroom presentations, and mentoring feedback. Applies structured review steps while building sound judgment, customer communication, and organized case support skills.

- Reviewed simulated auto injury files, identifying relevant facts for organized **claim documentation**.
- Analyzed **medical records** and incident reports during supervised evaluation exercises for practice.
- Practiced claimant update conversations, gathering information with clear and respectful **communication**.
- Applied structured review steps to assess **coverage** and **damages** in training cases.
- Maintained organized case notes and completed instructor feedback assignments on schedule.
- Presented claim evaluations during classroom sessions and **mentoring** reviews, explaining decisions clearly.

Insurance Services Student Intern

January 2025 - December 2025

University Customer Service Practicum

Austin, TX

Completed supervised service projects involving sensitive information, customer communication, documentation, prioritization, and decision making. Created process notes and presentations while contributing to team based learning focused on service quality and reliable case support.

- Handled sensitive information during supervised **customer service** exercises with appropriate discretion.
- Created documentation for service cases, helping teams follow consistent record keeping practices.
- Analyzed customer scenarios requiring prioritization, **problem solving**, and sound decisions.
- Prepared process notes and presentations for practicum evaluations and classroom feedback.
- Practiced professional customer conversations focused on clarity, empathy, and information gathering.
- Supported team learning activities that connected service quality with organized follow through.

PROJECTS

Auto Injury Claim Evaluation Study 📅 2026

A classroom case raised a practical question: which facts deserve attention first? Reviewed medical records, incident reports, coverage details, and damages, then presented a structured evaluation during mentoring review.

Customer Service Case Documentation 📅 2025

Sensitive information made each service exercise feel real. Built process notes, practiced customer conversations, and organized case details for supervised review and team learning.
