STRENGTHS

- ♥ **Accurate Records**
Reviewed reports and operational records carefully. A second look often caught gaps before information reached decision makers.
- 📌 **Clear Documentation**
Turned recurring work into usable procedures. Teams had a clearer reference when tasks became busy or unfamiliar.
- 👥 **Helpful Service**
Supported production partners with calm, practical answers. People returned when they needed information explained clearly.
- ✍ **Data Review**
Used process data to investigate concerns. Patterns became easier to discuss once findings were organized and visible.
- ☰ **Workflow Support**
Coordinated priorities across teams and kept activities moving. Small updates often prevented larger scheduling problems.

SKILLS

Clerical Support
Document Processing
Records Maintenance
Customer Assistance Filing
Indexing Data Review
Office Operations
Report Processing Case Files
Applications Compliance

SUMMARY

Administrative and operations professional with experience supporting clerical environments, manufacturing workflows, **records maintenance**, data review, **document processing**, and office operations. Daily work has included maintaining reports, procedures, production records, and supporting documentation while applying accuracy, compliance, and organized filing practices. Experience reviewing data, investigating issues, coordinating priorities, and communicating findings with technical teams and business partners supports dependable **customer assistance** and administrative service. Career development experience includes **structured problem solving**, process documentation, quality controls, and continuous improvement. A practical, service focused approach helps keep files current, information clear, and office activities moving smoothly. This background can support accurate case file processing, application review, indexing, report preparation, and reliable workforce administration in Los Angeles.

EXPERIENCE

Intermediate Clerk, Administrative Support Services

Administrative Support Services 📅 January 2022 - Present 📍 Los Angeles, CA

Supports daily administrative and operational activities across complex manufacturing processes, with responsibility for documentation, records, **data review**, resource coordination, and compliance support. Works with production and engineering partners to keep procedures clear, information reliable, and workflows consistent.

- Reviewed production **reports** and records, helping teams resolve workflow issues through **structured problem solving**.
- Created procedures and supporting documents, giving employees clearer guidance for consistent daily execution.
- Analyzed process data with engineering partners, identifying practical opportunities for stronger workflow reliability.
- Coordinated priorities and resources across production support teams, keeping technical activities organized and timely.
- Applied **continuous improvement** methods to strengthen employee capability, documentation quality, and operational consistency.
- Supported safety, quality, and **compliance** activities through disciplined **records maintenance** and operational follow through.

Operations Specialist, Previous Manufacturing Solutions Group

Previous Manufacturing Solutions Group 📅 June 2019 - December 2021 📍 Madison, WI

Supported **manufacturing** initiatives through data review, issue investigation, records maintenance, **process documentation**, and coordination with production and engineering stakeholders. Contributed to standard work, corrective action planning, equipment support, and reliable reporting for operational decisions.

- Reviewed operational data and case **records**, helping teams identify concerns requiring corrective action.
- Investigated production issues with analytical methods, giving stakeholders clearer facts for improvement planning.
- Maintained reports and operational records, supporting accurate decisions across production and engineering teams.
- Documented equipment and process updates, helping **technical teams** preserve consistent work practices.
- Contributed to standard work development, making recurring workflows easier for employees to follow.

Continuous Improvement

Spanish Intermediate

A donut chart with a dark blue center and an orange ring. The center contains the text "7.2 YEARS". The orange ring represents approximately 7.2% of the total circle.
