### STRENGTHS

- Coding Efficiency**  
Achieved significant improvements in code performance through systematic debugging and revisions. Peers recognized efforts frequently.
- Team Collaboration**  
Established valuable relationships within teams that sparked discussions and generated innovative ideas for projects. Regularly sought by peers for solutions.
- Adaptability**  
Quickly adjusted to changing project requirements, showcasing flexibility during high-pressure situations—resulting in continuous progress.
- Automation Knowledge**  
Integrated automation strategies in diverse projects, considerably improving efficiency in workflows. Implementation led to recognition from supervisors.
- Problem-Solving Skills**  
Approached complex challenges analytically to develop effective technical solutions; went beyond expectations solving team concerns.

### SKILLS

- Python Programming | AI Integration
- Workflow Automation
- Software Development Life Cycle
- Team Collaboration | Debugging
- Automation Tools | Problem Solving
- Efficiency Optimization
- Project Management

### SUMMARY

Eager for the opportunity as a Junior AI Solutions Engineer at TechVision Innovations, this role aligns perfectly with my experience in software development and passion for AI solutions. Over the past two years, I have developed robust programming skills, especially in Python, which allows me to build efficient code optimized for medical imaging. Collaborating with talented engineers shaped my problem-solving abilities while deepening my knowledge of workflow automation. My goal is always clear: enhance efficiency and impact project outcomes positively. Joining TechVision would take my dedication for AI further and contribute meaningfully to innovative solutions.

### EXPERIENCE

#### Junior AI Solutions Engineer

Innovative Tech Corp | June 2025 - Present | Bellevue, WA

In charge of implementing AI-driven solutions and collaborating with senior engineers. Duties also include coding, debugging, and enhancing workflows.

- Collaborated effectively with senior engineers on AI-driven solutions for medical imaging.
- Assisted in refining coding processes, ensuring better system performance and reliability.
- Engaged in automating workflows, leading to improved operational efficiency.
- Facilitated meetings to promote communication and feedback among cross-functional teams.

#### Software Engineering Intern

NextGen AI Solutions | June 2024 - May 2025 | Seattle, WA

Focused on developing automation tools and integrating advanced functionalities. Worked independently and collaboratively across multiple projects.

- Contributed hands-on to the creation of AI tools emphasizing process automation.
- Participated actively in brainstorming sessions for ongoing project improvements.
- Gained practical experience in Python, enhancing software testing approaches.
- Developed strong team collaboration skills working alongside experienced engineers.
