SUMMARY

Dedicated Registered Nurse with robust experience in Labor & Delivery care. Over two years skillfully providing compassionate treatment for patients during childbirth. Focus on conducting thorough assessments and implementing tailored care plans. Experience includes collaborating with multidisciplinary teams to enhance outcomes and ensure best practices. Proficient in mental support and education for families, ensuring informed decisions align with each unique situation. Current credentials include BLS, ACLS, and NRP certifications, underscoring commitment to patient welfare and safety in high-pressure environments essential for delivering quality healthcare.

EXPERIENCE

Labor & Delivery Registered Nurse

Healthcare Solutions, Inc. March 2025 - Present Chicago, IL

Lead nurse in a fast-paced Labor & Delivery unit, overseeing pre-delivery, delivery, and post-delivery procedures. Develops comprehensive patient plans collaborating closely with obstetric teams to achieve optimal care outcomes. Implements methods of assessment compliant with regulations and operates within strict protocols.

- Conduct individualized patient assessments by effectively prioritizing care that enhances overall satisfaction rates.
- Collaborate with interdisciplinary teams to create personalized and timely care plans compliant with established protocols.
- Monitor maternal and fetal health vigilantly to initiate prompt interventions leading to improved clinical outcomes.
- Keep accurate medical records through detailed documentation, maintaining HIPAA compliance while advocating trust among patients.
- Educate families on processes and anticipate questions for well-informed decision-making throughout labor and delivery.
- Execute emergency response protocols efficiently, contributing significantly to the safety and success rate of deliveries.

Registered Nurse

HealthFirst Medical January 2024 - February 2025 Naperville, IL

Provided care for various patients within the high-pressure therapeutic environment of a Labor & Delivery Unit. Adapted rapidly to evolving patient conditions while collaborating with various stakeholders.

- Delivered empathetic care while managing multiple active cases, ensuring every patient receives individual attention.
- Regularly conduct reassessments after patient progress analysis leading to optimally adjusted care strategies facilitating quicker recoveries.
- Participated actively in ongoing training programs to retain sharp competencies consistent with advancing nursing methodologies.
- Advocated for ethical patient rights consistently, ensuring all actions respect their privacy and uphold care standards.
- Mentored nursing students during clinical rotations, fostering an educational atmosphere excellence across the ward.
- Joined forces with healthcare teams frequently, discussing and refining patient management approaches based on deteriorating conditions.
