SUMMARY

Compassionate and dedicated Licensed Physical Therapist with experience in developing tailored treatment plans across diverse patient populations. Equipped to administer therapeutic exercises and manual therapy with a focus on recovery and engagement. Actively participates in mentoring programs, facilitating both personal and professional growth within the team. Strongly advocates for patient-centered care and continuous education through engaging with advanced AI documentation tools, ensuring streamlined interaction while maximizing patient contact. Committed to community health initiatives and fostering open collaboration with colleagues for optimal outcomes.

EXPERIENCE

Licensed Physical Therapist

TheraCare Solutions 📅 June 2026 - Present 📍 Kalamazoo, MI

As a Licensed Physical Therapist at TheraCare Solutions, responsible for implementing evidence-based treatment strategies with a primary focus on individualized patient needs. Owned patient caseload management and collaborated conjointly with physicians and other healthcare professionals.

- Developed personalized treatment plans to advance patient recovery, resulting in enhanced outcomes.
- Utilized cutting-edge AI documentation systems to reduce time spent on paperwork, promoting more face-to-face interactions.
- Motivated patients by tracking progress and celebrating milestones during therapy sessions.
- Played a key role in mentoring new graduates joining the organization, offering guidance and support.
- Participated regularly in interdepartmental meetings to ensure cohesive communication among staff and streamline operations.
- Engaged in outreach activities focused on community wellness and health education.

Physical Therapy Intern

Wellness Center of Michigan 📅 January 2026 - May 2026 📍 Grand Rapids, MI

Served as an intern gaining hands-on experience assisting professionally licensed therapists in creating and executing treatment plans. Involved deeply with patients while focusing on physical rehabilitation and collaboration with multidisciplinary teams.

- Supported experienced therapists by designing treatment plan portions under supervision, increasing clinical familiarity.
- Executed therapeutic exercises, carefully adapting them based on individual patient feedback to optimize results.
- Encouraged patient education through tailored explanations that motivated ongoing involvement in their health care.
- Monitored treatment progress and reported significant changes to supervisors, refining care objectives.
- Documented patient interactions with attention to detail following established clinical protocols.
- Presented innovative ideas to enhance patient engagement during staff brainstorming sessions.
