SUMMARY

Compassionate and dedicated Licensed Practical Nurse with over 2 years' experience delivering high-quality patient care in ambulatory settings. Skilled in clinical assessments, medication administration, and collaborating with healthcare teams to ensure exceptional care. Partnered effectively with physicians and RNs to foster a supportive environment, prioritizing patient safety and education. Eager to leverage expertise in a new role at HealthFirst Wellness, committed to adhering to nursing standards and enhancing patient outcomes through collaborative practice.

EXPERIENCE

Licensed Practical Nurse

HealthPlus Medical Center  January 2025 - Present  Schaumburg, IL

Provide direct patient care including nursing assessments, vital signs monitoring, and medication administration under supervision. Engage in pre-visit planning and prepare examination areas for safe, organized patient care. Mentor new clinical staff while contributing to departmental meetings and training efforts.

- Administer medications according to best practices and clinic policies.
- Perform nursing procedures within Scope of Responsibilities.
- Prepare treatment areas complying with established protocols.
- Document patient care and observations accurately.

Nursing Assistant

CareWell Clinic  June 2024 - December 2024  Oak Park, IL

Supported nursing team in providing comprehensive care to patients, ensuring efficient processes and maintaining high standards in treatment environments. Engaged actively in monitoring vital signs and executing rooming procedures.

- Assisted nursing staff with clinical duties and supported patient preparation.
- Maintained cleanliness and organization within clinical areas.
- Contributed feedback on process improvements from patient perspectives.
- Helped train new assistant staff on protocols and procedures.

Clinical Volunteer

Community Health Event  August 2023 - October 2023  Chicago, IL

Participated actively in community health events. Provided educational support concerning health promotion and accessible care systems, enhancing community understanding of health resources.

- Educated attendees about preventive health measures.
- Organized materials and resources for clinic operations.
- Collaborated closely with healthcare providers during event activities.
- Gathered participant feedback for continuous improvement.
