SUMMARY

Compassionate Licensed Practical Nurse with over two years of experience delivering quality patient care across various healthcare settings. Proficient in clinical assessments, medication administration, and collaborative treatment planning with healthcare teams. Diligently supports patients through education and guidance on health management, ensuring adherence to established care protocols and safety standards. Passionate about fostering positive relationships within teams and with patients, enhancing overall patient satisfaction and outcomes. Eager to contribute meaningfully at Cedar Valley Health, upholding the highest nursing standards in dynamic environments.

EXPERIENCE

Licensed Practical Nurse

Cedar Valley Health  January 2025 - Present  Cedar Falls, IA

Lead direct patient care operations under RN supervision, managing diverse treatments and interventions aimed at improving individual health outcomes. Engage collaboratively within a multidisciplinary team to develop personalized and effective care strategies that align with organizational objectives.

- Conduct thorough assessments and evaluations to adjust patient care plans efficiently.
- Administer medications and document progress per established departmental guidelines.
- Educate patients on healthcare needs, ensuring clarity on discharge instructions.
- Collaborate closely with RNs to enhance care delivery and staff training initiatives.
- Participate actively in departmental meetings, contributing insights for quality improvements.
- Mentor new LPNs during onboarding, cultivating a positive learning environment.

LPN

Greenwood Medical Center  June 2024 - December 2024  Waterloo, IA

Contributed to a high-volume healthcare facility, focusing on immediate patient needs and clinical efficiency. Utilized strong teamwork skills to assist RNs in implementing care plans while promoting patient security and well-being throughout daily operations.

- Assisted in providing hands-on care while prioritizing critical tasks effectively.
- Documented all nursing activities thoroughly, meeting compliance and regulatory standards.
- Collected relevant data for assessments to support RN clinical judgments and modifications.
- Implemented patient education initiatives tailored to diverse needs and conditions.
- Engaged in ongoing training sessions to continually refine nursing skills and knowledge.
- Maintained infection control protocols diligently during all patient interactions.
