EXPERIENCE

Culinary Intern

University Project  January 2026 - Present  Austin, TX

Engaged in hands-on culinary training within a fast-paced kitchen environment, supporting menu preparation, ingredient sourcing, and food presentation for events. Worked collaboratively with fellow culinary students to enhance skills and ensure high-quality dish execution.

- Collaborated with culinary students on designing seasonal menus for campus events.
- Managed food preparation and visual presentation according to strict quality standards.
- Trained new interns on kitchen operations and safety regulations.
- Conducted taste samplings to refine recipes through peer feedback.
- Initiated a kitchen cleanliness checklist boosting sanitation review scores.
- Implemented a budgeting plan reducing event costs by strategically sourcing ingredients.

Food Safety Research Assistant

University Research Lab  September 2025 - December 2025  Austin, TX

Contributed to vital research focusing on food safety practices across local eateries, which included data analysis and staff engagement about compliance challenges. Delivered insights essential for improving underlying food safety dynamics.

MY CAREER

● Culinary Intern at University Project (7 Months)

● Food Safety Research Assistant at University Research Lab (3 Months)

- Analyzed food safety procedures through data collection from various restaurants.
- Helped prepare detailed reports summarizing research findings for faculty review.
- Facilitated discussions with staff to explore prevalent food safety issues.
- Used statistical tools for trend analysis, guiding better safety practices.
- Presented key outcomes for peer evaluation at a university symposium.
- Assisted in developing guidelines aimed at enhancing food safety standards.

Culinary App Developer

Hackathon Project 📅 March 2025 📍 Austin, TX

Led the development of a mobile app prototype that aids users in locating healthy recipes tailored to available ingredients. Coordinated with tech peers, focusing on user experience and functionality enhancements throughout the project lifecycle.

- Engineered a prototype helping users streamline healthy recipe discovery.
- Collaborated with computer science students to create intuitive interface designs.
- Conducted user testing for iterative improvements based on participant feedback.
- Showcased the application at a hackathon, gaining significant constructive praise.
- Researched diverse dietary needs to cater comprehensively to varied requirements.
- Documented developmental milestones, directing future feature introductions.
