JULY 13, 2026

Hiring Manager
Azend Pharma
Cranbury, NJ

Greetings,

I am excited to apply for the LTC Pharmacist position at Azend Pharma. This role truly excites me, matching perfectly with my experience and aspirations. With over five years in fast-paced pharmacy environments, managing prescriptions and advising patients, I feel ready to contribute.

At Greenwood Pharmacy, I managed to consistently review and fill prescriptions while focusing on patient needs. Curious patients often approached me with questions, and I took great care in providing clear, helpful answers. For instance, I once assisted a patient with concerns about a new medication, ensuring they fully understood potential side effects and usage. Building trust is vital.

Yet, my experience is not without challenges. I recall a time when inventory was low, and I scrambled to secure essential medications, learning the importance of active communication with suppliers. It taught me that being proactive yields better patient outcomes. Collaboration with healthcare professionals further improved medication management at my previous pharmacy.

The busy pharmacy settings shaped my time management skills and attention to detail. I studied prescriptions meticulously, balancing multiple tasks with ease. Feedback from both patients and peers affirmed my contributions towards achieving a reliable and safe pharmacy.

I am eager to bring my unique skills to Azend Pharma, ensuring quality care for your patients. Your commitment to advancing pharmacy practices resonates with my professional values. I look forward to the possibility of discussing how I can contribute to your exemplary team.

Thank you for considering my application.

Sincerely,

Kehlani Morrow
