STRENGTHS

- ☁ **Storm Preparation**
Inspections before forecast storms helped crews clear blocked paths early, and supervisors gained dependable condition reports.
- 🔧 **Equipment Safety**
Tool and PPE checks became a steady start to each assignment, giving crews safer field readiness.
- 💧 **Drainage Care**
Debris removal and reshaping restored visible flow paths, and coworkers relied on practical site observations.
- 🌲 **Outdoor Service**
Mowing and tree trimming continued through changing weather, with public access kept in mind throughout.
- 👥 **Crew Support**
Material staging and truck loading kept repair teams moving, and field partners often sought reliable preparation.

SKILLS

Drainage maintenance
Culvert maintenance
Storm water inlets
Drainage channels
Street maintenance Mowing
Tree trimming Chain saw operation
Pole saw operation
Grass trimmer use
Pickup truck operation
Asphalt repair Concrete repair
Work zone safety
Clean driving record

SUMMARY

Maintenance Worker II specializing in **storm water** and public infrastructure maintenance, with four years of progressively responsible field and supervised training experience. Work includes drainage channels, culverts, inlets, basins, roadway support, vegetation control, **debris removal**, mowing, **tree trimming**, and outdoor service during changing weather. Skilled with pickup trucks, chain saws, pole saws, grass trimmers, hand tools, personal protective equipment, and safe work zone practices. Experienced in inspecting drainage paths before storms, clearing obstructions, reshaping areas for steady flow, supporting asphalt and concrete repairs, and documenting conditions requiring follow up. Holds a Texas Class B Commercial Driver's License and maintains a **clean driving record**. Brings dependable field habits, practical equipment knowledge, and steady attention to public safety across streets, alleys, bridges, guardrails, culverts, and drainage systems.

EXPERIENCE

Maintenance Worker II, Storm Water

Trinity Drainage Services 📅 February 2024 - Present 📍 Arlington, TX

Support daily storm water and **street maintenance** across drainage structures, easements, roadways, bridges, and public access areas. Manage field tools, vehicles, safety checks, storm preparation, and repair support without supervisory responsibility.

- Cleared inlets, **culverts**, **channels**, and basins, restoring drainage flow after debris and vegetation buildup.
- Removed obstructing branches with **chain saws**, pole saws, and **grass trimmers** across drainage easements.
- Inspected drainage paths before storms, documenting sites needing heavier repair or equipment support.
- Operated **pickup trucks** between job sites, staging tools, barricades, and materials for field crews.
- Supported asphalt, concrete, guardrail, bridge, and culvert repairs across streets and alleys.
- Completed vehicle, tool, PPE, and work zone checks before daily field deployment.

Infrastructure Maintenance Trainee, Public Works

Cedar Creek Public Works Training Program 📅 June 2022 - January 2024 📍 Grand Prairie, TX

Completed supervised field rotations supporting roadside drainage, public rights of way, pavement repairs, vegetation control, and equipment readiness. Built practical maintenance skills through safe crew assignments and documented service locations.

- Maintained roadside ditches, **culverts**, and drainage features during supervised field rotations.
- Removed sediment, branches, litter, and vegetation, reopening visible water paths after inspections.
- Used trimmers, saws, shovels, and portable equipment under **PPE** and traffic control procedures.
- Supported pavement edges, alleys, concrete sections, and **guardrail repairs** during crew assignments.
- Mowed drainage areas and trimmed trees while protecting utilities and public access.
- Loaded tools and materials into work trucks, then completed equipment checks after shifts.

PROJECTS

Storm Drainage Flow Restoration 📅 2025

Cleared obstructed drainage paths, reshaped affected areas, and documented follow up needs after storm inspections. Field work supported steady water movement through channels and basins.

Street and Culvert Repair Support 📅 2023

Assisted supervised crews with pavement edges, concrete sections, guardrails, bridges, and culverts. Prepared tools, materials, traffic controls, and work areas for safe daily execution.

MY CAREER

- Maintenance Worker II, Storm Water at Trinity Drainage Services (2.6 Years)
- Infrastructure Maintenance Trainee, Public Works at Cedar Creek Public Works Training Program (1.6 Years)

LEADERSHIP & AWARDS

- Recognized for dependable storm preparation and clear documentation during field maintenance assignments.
- Selected for continued public works training rotations covering drainage, pavement, vegetation, and equipment support.

EDUCATION

High School Diploma
Sam Houston High School 🎓 GPA: 4.0 📅 2022 📍 Houston, TX
***Coursework:** Safety practices, environmental science, technical mathematics, physical education*

CERTIFICATIONS

- Texas Class B Commercial Driver's License 📅 2025
- Personal Protective Equipment Safety Training 📅 2024

TECHNICAL SKILLS

- **Drainage Structures:** Culverts, inlets, channels
- **Storm Water Areas:** Basins, easements, ditches
- **Vegetation Equipment:** Chain saws, pole saws, grass trimmers
- **Grounds Maintenance:** Mowing, tree trimming, debris removal
- **Street Repair Materials:** Asphalt, concrete, pavement
- **Transportation Equipment:** Pickup trucks, work trucks, steel wheel rollers
- **Infrastructure Assets:** Bridges, guardrails, alleys
- **Hand Tools:** Shovels, hand tools, barricades
- **Safety Equipment:** PPE, traffic controls, work zone checks
- **Field Documentation:** Storm inspections, condition reports, maintenance locations

PROFESSIONAL AFFILIATIONS

- Public works maintenance teams, drainage service operations, and supervised infrastructure field crews.
- Street, storm water, bridge, culvert, and right of way maintenance activities across North Texas.
