Manager, Revenue Accounting

Valeris

Oak Grove, NC

Dear Hiring Manager,

In pursuing the Manager of Revenue Accounting role at Valeris, I am eager to bring my extensive background in revenue accounting to transform how the organization approaches financial operations. My experience managing high-volume financial environments has honed my ability to navigate the maze that accounting can often become, ensuring accurate revenue recognition and compliance with U.S. GAAP alongside ASC 606.

There were times while tackling complex account reconciliations that doubt would creep in, but each challenge honed my grit. I successfully revamped the order-to-cash process at Apex Financial Services, cultivating relationships across cross-functional teams to enhance efficiency and accuracy, resulting in measurable improvements in cash application and ledger integrity.

In my current role, I directly oversee daily revenue accounting operations. I deeply value compliance and integrity while mentoring my team to embrace best practices. This collaboration fosters a culture of accountability while promoting continuous improvement in all aspects of financial reporting and operations.

Additionally, I have been at the forefront of implementing automation tools, which streamlined revenue processes and minimized manual errors. My journey exemplifies a commitment to ongoing professional development, and my advanced Microsoft Excel skills enable me to drive impactful solutions across accounting dimensions.

I am thrilled at the prospect of contributing to Valeris, a company that aligns with my professional values. I appreciate how Valeris values detailed financial oversight and innovative processes to improve operations. I look forward to potentially leveraging my skill set to contribute to your operational success and continued excellence.

Warm regards

,

Joshua Ho
