

Sophia Mitchell

Master Data Analyst

☎ (312) 555-6725 ✉ sophia.mitchell@example.com 🌐 linkedin.com/in/sophiamitchell 📍 456 Pine St, Chicago, IL 60614

SUMMARY

Detail-oriented Master Data Analyst with over 3 years managing material master data within SAP environments. Proficient in data governance, quality standards, and supply chain processes. Skilled in utilizing SAP MM and Excel tools to enhance data integrity and support procurement and finance teams. Recognized for improving data accuracy and efficiency through diligent auditing and collaboration with cross-functional teams, contributing to significant supply chain initiatives.

EXPERIENCE

Master Data Analyst

Data Dynamics Inc. 📅 January 2021 - Present 📍 Chicago, IL

Manage end-to-end processes related to material master data in SAP while ensuring compliance. Utilize data governance practices effectively within the organization.

- Created and maintained comprehensive material master data in SAP while adhering to governance standards.
- Processed and validated master data requests according to established SOPs, leading to enhanced operational efficiency.
- Collaborated closely with supply chain, procurement, and finance teams to provide accurate, timely data support.
- Monitored and audited data quality consistently, implementing corrective actions to address any discrepancies.

Junior Data Analyst

Tech Solutions LLC 📅 June 2019 - December 2020 📍 Chicago, IL

Provided analytical support focused on data quality and management efforts, enhancing team communication for successful project outcomes.

- Assisted in managing master data across SAP, ensuring adherence to data accuracy and governance compliance.
- Supported creation of purchasing info records and source lists while maintaining data integrity.
- Employed Excel for data analysis tasks, improving overall data management processes.
- Collaborated with various departments to resolve data-related inquiries efficiently.

LEADERSHIP & AWARDS

- Data Quality Excellence Award at Data Dynamics Inc. for outstanding contributions to improved data accuracy.
- Recognized by supply chain leadership for exemplary collaboration and initiative in addressing data challenges.
