STRENGTHS

- 💡 **Strategic Thinking**
Constantly assessing processes and impacts, enabling proactive enhancements that mitigate risk, resulting in smoother workflows.
- 🔧 **Problem-Solving**
Leveraged extensive experience to analyze complex equipment failures, not just supporting teams but motivating them to seek sustainable solutions.
- 👥 **Collaboration**
Fostered relationships between operations and engineering teams, earning recognition as a go-to resource for resolving multi-faceted issues.
- ⚙️ **Technical Expertise**
Implanted technological advancements into maintenance protocols, rendering improved operational capacity and minimal disruptions.
- 🛡️ **Safety Focus**
Promoted a culture where every team member prioritizes safety, guiding internal audits and continuously refining processes based on registry feedback.

SKILLS

Preventive and Predictive Maintenance

CMMS Proficiency

Root Cause Analysis

Equipment Reliability Analysis

Technical Support and Troubleshooting

Regulatory Compliance

Maintenance Strategy Development

Data Analysis

Cross-Functional Collaboration

SUMMARY

Accomplished Mechanical Engineer with over 12 years in the oil and gas sector, specializing in onshore mechanical reliability and maintenance strategies. Proven expertise in developing and executing comprehensive preventive and predictive programs that significantly enhance equipment performance while reducing downtime. Highly adept in leveraging CMMS for effective scheduling, tracking, and optimizing maintenance activities, effectively ensuring compliance with stringent safety regulations. Recognized for fostering cross-functional collaboration to elevate operational efficiency and ensure robust preventive measures align with best practices and industrial standards.

EXPERIENCE

Senior Mechanical Engineer

Reliant Engineering Solutions 📅 January 2021 - Present 📍 Riyadh, Saudi Arabia

Leads preventive and predictive maintenance strategies aimed at optimizing onshore mechanical operations. Collaborates closely with engineering, operations, and maintenance teams, bolstering plant performance and ensuring compliance with safety protocols.

- Spearheaded the implementation of a comprehensive preventive maintenance program, resulting in a 30% boost in equipment reliability over two years.
- Utilized CMMS for strategic planning and scheduling, successfully enhancing tracking efficiency and curtailing unplanned downtime by 15%.
- Executed thorough root cause analyses on mechanical failures, instituting corrective actions that lowered maintenance costs by 20%.
- Facilitated troubleshooting efforts alongside operations teams, providing technical support that led to a remarkable 25% increase in operational efficiency.
- Ensured adherence to maintenance standards and safety regulations, cultivating a strong safety culture throughout the organization.
- Coordinated cross-functional initiatives among engineering, operations, and maintenance teams to optimize overall plant performance.

Mechanical Engineer

Advanced Mechanical Solutions 📅 March 2015 - December 2020 📍 Houston, TX

Focused on predictive maintenance strategies to enhance equipment reliability within a competitive industry. Spearheaded training and development initiatives aimed at elevating team effectiveness and operational success.

- Formulated and executed predictive maintenance strategies, significantly achieving a 40% decrease in equipment failure rates during the initial year.
- Introduced an innovative CMMS dashboard, streamlining maintenance tracking processes that boosted team productivity by 20%.
- Analyzed reliability data to impart actionable recommendations, producing marked improvements in maintenance planning processes.
- Conducted training sessions for maintenance personnel, elaborating new procedures and equipment usage to enhance team skills and preparedness.
- Oversaw routine safety audits and compliance checks, guaranteeing alignment with industry regulations and best practices.
- Managed complex cross-departmental projects emphasizing sustainable mechanical system performance enhancement.

Mechanical Engineer

Global Energy Corp 📅 June 2012 - February 2015 📍 Los Angeles, CA

Contributed to the design and implementation of maintenance protocols tailored for key mechanical systems, resulting in enhanced reliability metrics and operational continuity.

MY CAREER

Senior Mechanical Engineer at Reliant Engineering Solutions (5.4 Years)

Mechanical Engineer at Advanced Mechanical Solutions (5.8 Years)

Mechanical Engineer at Global Energy Corp (2.7 Years)

- Engineered and enforced maintenance protocols that stimulated a 15% improvement in critical metrics related to mechanical system reliability.
- Applied root cause analysis methodologies to identify issues leading to reduced operational interruptions, bolstering reliability.
- Collaborated with engineering cohorts to improve equipment specifications, further reinforcing reliability standards within the company.
- Assisted in formulating safety programs designed to elevate maintenance personnel's safety awareness and procedural adherence.
- Integral in introducing new equipment into operations, ensuring efficient integration with existing maintenance frameworks.
- Offered ongoing technical guidance to operational teams, enabling rapid resolution of mechanical challenges as they arose.

LEADERSHIP & AWARDS

- Achieved recognition for outstanding leadership in safety practices across multiple departments ensuring a secure working environment.
- Received the Innovator Award for implementing advanced maintenance technologies improving operational efficiencies in mechanical systems.

EDUCATION

Bachelor's Degree in Mechanical Engineering

University of Illinois 🎓 GPA: 3.5 📅 2012 📍 Urbana-Champaign, IL

Coursework: Thermodynamics, Fluid Mechanics, Machine Design, Dynamics

CERTIFICATIONS

- Certified Maintenance and Reliability Professional (CMRP) 📅 2018
- Six Sigma Green Belt 📅 2020

TECHNICAL SKILLS

- **CMMS Tools:** IBM Maximo, SAP, Infor EAM
- **Engineering Design Software:** AutoCAD, SolidWorks, CATIA
- **Analytical Tools:** MATLAB, Excel, Minitab
- **Safety Standards:** OSHA, ISO 9001, API RP 574
- **Project Management Tools:** Trello, Asana, JIRA
- **Statistical Techniques:** Six Sigma, Lean Methods, Control Charts
- **Mechanical Systems:** Pumps, Compressors, Heat Exchangers
- **Certification:** Certified Maintenance and Reliability Professional (CMRP), Six Sigma Green Belt
- **Diagnostic Tools:** Vibration Analyzers, Ultrasonic Devices, Infrared Thermography
- **Collaborative Platforms:** Microsoft Teams, Slack, Zoom

PROFESSIONAL AFFILIATIONS

- Member of the American Society of Mechanical Engineers (ASME), advocating for engineering excellence.
- Active participant in local chapter meetings for Continuous Improvement in Maintenance Practices.
