

Hannah Glenn

Medical Coder - Orthopedics and Podiatry Services

JULY 15, 2026

Hiring Manager
HealthTech Solutions
Atlanta, GA

Dear Hiring Manager,

I am thrilled to apply for the Medical Coder position at HealthTech Solutions. This role aligns perfectly with my skills and burgeoning passion for coding, particularly in the realms of orthopedics and podiatry, where I have over five years of experience.

Assigning diagnostic and procedure codes according to clinical documentation is a task I relish. I have effectively monitored record queues at my current role, where I ensure that over 300 records are charged accurately each week. Despite the pressure, I find joy in maintaining high accuracy and efficiency.

At HealthPlus Medical Group, I assisted through mentorship to junior coders, enhancing our collective output. Surprise audits often revealed an accuracy rate of 98%. They appreciated my clarity, and I thrived while sharing insights.

Staying informed on changes is vital. I've made it my task to read up on the latest coding conventions. Collaboration drives success; coding queries often sparked team dialogues that improved documentation clarity.

Best regards,

Hannah Glenn,

Hannah Glenn
