STRENGTHS

- ✔ **Attention to Detail**
Consistently identified errors in coding, improving accuracy rates and minimizing claim denials, ensuring reliability in billing activities.
- 🗨 **Effective Communication**
Build relationships with insurers leading to quicker resolutions of denied claims, nurturing trust throughout networks of care.
- 💡 **Problem-Solving Skills**
Resailed complex coding challenges by employing thorough examinations of documents in queries, turning issues back into solutions.
- 💻 **Technology Proficiency**
Utilized advanced medical classification software, streamlining processes that led to increased productivity in billing functions.
- 🎓 **Training Facilitation**
Guided newcomers in methods and practice standards of coding, supporting their swift transition into efficient coding roles.

SKILLS

Medical coding (ICD-10, CPT)

Claims management

Data entry and documentation

Attention to detail

Effective communication

Time management

Revenue cycle efficiency

Regulatory compliance

Conflict resolution skills

Medical terminology mastery

Research capabilities

SUMMARY

Dynamic Medical Coder with over a year of experience in coding for healthcare, focusing on psychiatric services. Skilled in ICD-10 and CPT guidelines, showcased through effective claims submission and adherence to legal standards. Proven history of collaborating with insurance companies and resolving denied claims, resulting in enhanced financial outcomes. Renowned for attention to detail and commitment to confidentiality, recognizing the significance of accurate data management. Passionate about staying updated with industry developments to provide best practices in coding processes, ensuring quality patient care and compliance with regulatory requirements.

EXPERIENCE

Medical Coder

Wellness Health Center 📅 June 2025 - Present 📍 Des Moines, IA

As a Medical Coder, responsibility involves applying healthcare coding principles for optimal claim submissions. Contributed significantly to procedural accuracy and ensured they align with regulations while managing support operations for billing.

- Assigned procedures and diagnoses codes accurately for insurance billing, maintaining compliance with federal regulations.
- Utilized specialized coding software effectively, enhancing workflow efficiency in the coding process for submitted claims.
- Ensured clinical documentation compatibility with established CPT and ICD coding principles by reviewing all medical records.
- Communicated regularly with insurance entities to resolve discrepancies related to denied claims, advocating for necessary adjustments.
- Trained new staff on coding protocols and procedures, sharing best practices for successful issue resolution.
- Conducted extensive research into medical records to clarify coding decisions affecting overall reimbursement rates.

Junior Medical Coder

Health Services Group 📅 August 2024 - May 2025 📍 Cedar Rapids, IA

This role provided foundational experience in healthcare coding, focusing on compliance with coding regulations, which supported training under senior coders on a varied array of worthwhile coding tasks.

- Assisted in assigning diagnosis and procedure codes that complied with both basic and advanced coding standards across various departments.
- Reviewed claims submissions meticulously to ensure zero discrepancies or incomplete information prior to offering them to payers.
- Recorded and organized coding documentation required for auditing processes in accordance with HIPAA privacy guidelines.
- Actively participated in continual professional development efforts around best practices in managing coding updates from CMS.
- Collaborated with experienced coders in examining complex cases as part of ongoing improvement discussions within the team.
- Engaged structuring meetings focused on strategic problem solving for persistent issues faced during coding reviews.

LEADERSHIP & AWARDS

- Employee of the Month at Wellness Health Center for exceptional coding accuracy and reliability in December 2025.
- Recognition for collaboration and teamwork at Health Services Group for proper claims resolution in March 2025.
