SUMMARY

Compassionate Medical Technologist driven by a passion for improving patient care through meticulous laboratory work. Over two years of practical experience in fast-paced environments, demonstrating strong problem-solving and communication skills. Expert at executing complicated procedures with precision while complying with strict regulations. Experience encompasses quality control, equipment maintenance, data analysis, specimen collection across diverse age groups from newborns to adults, and staff training. Recently facilitated educational programs for interns and junior technicians, allowing them to elevate their performance and confidence. Aiming to contribute knowledge and enhance operational efficiencies at Health Solutions Group.

STRENGTHS

- 👁️ **Attention to Detail**
Accurate monitoring of lab tests ensures reliable results
communicate effectively with medical staff, fostering trust.
- 👥 **Team Collaboration**
Worked closely with interdisciplinary teams; often sought after for peer guidance and technical advice.
- 🔄 **Adaptability**
Thrived in different clinical roles during internships, rapidly acclimating to varied protocols efficiently.
- 🔧 **Problem Solving**
Identified instrument malfunctions promptly, minimizing downtime and ensuring workflow efficiency in the lab.
- ✅ **Quality Assurance**
Implements rigorous quality control standards that elevate testing reliability and compliance with regulatory requirements.

SKILLS

Laboratory testing and analysis

Quality control and assurance

Excellent communication skills

Specimen collection and handling

Team collaboration and training

Data analysis

Regulatory compliance

Instrument maintenance

EXPERIENCE

Medical Technologist

MediLab Services 📅 January 2025 - Present 📍 Naperville, IL

Serve as a Medical Technologist in a high-throughput lab setting, executing tests as per established guidelines. Demonstrate a keen eye for detail in analyzing results, facilitating accurate diagnostics and patient care.

- Perform calibration, maintenance, and repair of laboratory instruments ensuring consistent reliability.
- Train and mentor staff on various laboratory protocols, enhancing team proficiencies.
- Conduct quality assurance checks regularly, responding swiftly to identified discrepancies.
- Collaboration with healthcare professionals to communicate critical test results efficiently.

Laboratory Assistant

BioTech Innovations 📅 June 2024 - December 2024 📍 Aurora, IL

Supported lab operations through detailed specimen collection and preparation processes. Engaged in ongoing training under seasoned technologists to refine testing proficiency.

- Collected, labeled, and processed patient specimens according to protocol.
- Maintained laboratory cleanliness, adhering to safety regulations and standard procedures.
- Assisted in running diagnostic tests, documenting findings clearly.
- Contributed to team quality control efforts by monitoring lab equipment.

LEADERSHIP & AWARDS

- Employee of the Month - MediLab Services, July 2025: Recognized for dedication to team efficiency and exemplary patient service.
- Academic Excellence Award - University of Illinois, 2024: Honored for outstanding performance in medical technology coursework.

EDUCATION

Bachelor's Degree in Medical Technology

University of Illinois 🎓 GPA: 3.8 📅 2024 📍 Champaign, IL

Coursework: *Clinical Chemistry, Hematology, Microbiology, Quality Control*

CERTIFICATIONS

- Certified Medical Laboratory Technician (CMLT) 📅 2025
- Basic Life Support (BLS) Certification 📅 2025

TECHNICAL SKILLS

- **Laboratory Instruments:** Analyzers, Micropipettes, Centrifuges
- **Testing Methods:** Spectrophotometry, Chromatography, Flow Cytometry
- **Software Systems:** LIS, EMR, LIMS

- Technical documentation
- Training program development
- Patient interaction
- Microbiology techniques
- Hematology analysis
- Blood transfusion services
- Laboratory safety protocols
- Diagnostic equipment operation

- **Safety Protocols:** OSHA Guidelines, BSL Standards, Biohazard Management
- **Quality Control Tools:** Control Charts, Six Sigma, Statistical Process Control
- **Communication Tools:** MS Office, Email Platforms, Lab Reporting Software
- **Training Techniques:** Hands-on Training, Workshops, Tutorial Sessions
- **Specimen Collection Techniques:** Vein Puncture, Fingerstick, Urine Collection
- **Analytical Techniques:** Enzymatic Assays, Immunoassays, Hemagglutination
- **Documentation Requirements:** Protocol Documentation, Compliance Records, Lab Manuals

PROFESSIONAL AFFILIATIONS

- American Society for Clinical Laboratory Science - Member since 2025
- Illinois Society for Clinical Laboratory Professionals - Active Participant
