SUMMARY

Dedicated Environmental Health & Safety Specialist with over five years bridging compliance, waste management, and environmental protection. Proficient in leading projects for RCRA compliance, successfully coordinating a range of initiatives to ensure all operational facets align with federal and state regulations. Consistently liaised with agencies both internal and external, nurturing collaborative relationships for better regulatory understanding. Committed to streamlining waste reduction processes and enhancing operational metrics achievable by meticulous oversight and proactive approach. This role also allows crafting innovative solutions within manufacturing environments, reinforcing dedication to safety and environmental integrity.

EXPERIENCE

Environmental Compliance Specialist

June 2021 - Present

EcoSafe Industries

Wichita, KS

Focused on driving compliance efforts for hazardous waste management and regulatory adherence at EcoSafe Industries. Spearheaded a variety of monitoring and reporting tasks under the RCRA guidelines while ensuring seamless collaboration with contractors engaged in environmental cleanup efforts. Monitored evolving environmental legislation's potential impacts on operations, adapting strategies accordingly for effective compliance.

- Developed training material and led workshops on environmental policies, which facilitated greater staff awareness.
- Conducted audits that pinpointed compliance gaps, implementing corrective actions that helped maintain operations standards.
- Collaborated closely with local regulatory agencies, ensuring accurate interpretation and implementation of environmental regulations.
- Analyzed production workflows for opportunities to reduce waste, contributing measurable improvements in sustainability practices.
- Facilitated communication between departments for advancing compliance initiatives, enhancing organizational synergy.
- Managed project timelines that streamlined waste disposal practices, significantly reducing risks associated with non-compliance.

Environmental Health & Safety Coordinator

April 2018 - May 2021

GreenSolutions Corp

Wichita, KS

Guided environmental compliance initiatives, focusing on rigorous inspection protocols and strategic partnerships across the company. Fostered improved environmental performance through process innovation involving ISO 14001:2015 standards. Actively engaged with stakeholders to drive sustainable practices and address compliance barriers systematically.

- Coordinated and executed compliance inspections that established checkpoints for adherence to environmental regulations.
- Published comprehensive reports and regulatory applications, playfully stressing a strong compliance culture organization-wide.
- Introduced ISO 14001:2015 standards into operational frameworks, enriching the corporate sustainability strategy.
- Trained teams to instill safety measures and elevate employee commitment towards environmental goals.
- Analyzed project metrics so management could make informed decisions that support compliance improvement strategies.
- Drove methodology adaptations promoting faster response to environmental agency updates, showcasing organizational responsiveness.

Environmental Intern

January 2017 - March 2018

EcoSafe Industries

Wichita, KS

Supported compliance documentation preparations while working towards full integration under RCRA standards. Conducted crucial research into legislative developments influencing environmental practice enabled direct hands-on involvement in assessing risk factors present during field evaluations.

- Collaboratively developed awareness programs focusing on emerging environmental regulations affecting workplace safety.
- Participated in field assessments leading to real-time evaluation of environmental impacts, stimulating immediate optimization discussions.
- Contributed to data management enhancing accuracy across monitoring systems crucial for compliance reporting.
- Supported experienced staff in auditing procedures refining company-wide strategies to mitigate regulatory risks.
- Engaged in weekly brainstorming sessions aiming to streamline current waste management practices, linking theoretical knowledge to practical outputs.
- Assisted in record maintenance vital for transparency and accountability in environmental reporting.
