Hiring Manager
Hartgrove Behavioral Health System
Chicago, IL
60614

Dear Hiring Manager,

I am excited to express my interest in the New Grad Registered Nurse position at Hartgrove Behavioral Health System. This opportunity aligns remarkably with my aspirations and foundational knowledge in nursing practices, especially within psychiatric care. With dedication and compassion, I aim to enhance patient experiences, contributing to a healthcare environment that values each individual.

While interning in a fast-paced university research lab, I developed a solid understanding of mental health support protocols. Working alongside seasoned professionals, I participated in devising therapeutic techniques, ensuring patient needs were prioritized and addressed. This taught me not just essential nursing skills but the significance of teamwork in providing effective patient care.

Engaging with diverse patients during assessments cultivated my ability to connect empathetically, paving the way for trust and open communication. I often found myself contemplating the best strategies to ensure that every individual felt heard, valued, and guided throughout their journey to wellness.

Completing my capstone project in mental health awareness allowed me to cultivate skills in research and data analysis. I collaborated with peers to uncover insights into the perceptions of mental health resources and advocated for improvements. This experience significantly broadened my understanding of enhancing community wellness and engagement through education.

I am particularly drawn to Hartgrove's commitment to interdisciplinary collaboration, as I believe that a comprehensive approach to care ensures not only better patient outcomes but also a more enriching work environment. I am eager to bring my insights and energy to a team that prioritizes professional nursing growth.

Thank you for considering my application.

Sincerely,

Xiao Bush
