EXPERIENCE

Nursing Intern

University Research Lab 📅 June 2025 - May 2026 📍 Chicago, IL

Assisted in patient care under the supervision of registered nurses, enhancing skills in mental health assessments and therapeutic interventions within multidisciplinary settings. Focused on improving patient education by providing support and resources tailored to individual needs, documenting thorough patient interactions.

- Supported registered nurses during mental health assessments, coordinating care activities.
- Engaged in therapeutic interventions, significantly impacting patient recovery experiences.
- Documented all interactions and assessments in electronic health records efficiently.
- Facilitated patient education discussions, contributing positively to their treatment journey.
- Actively participated in team meetings, offering insights into patient progress and necessary adjustments.
- Strengthened communication abilities collaborating closely with peers and healthcare professionals.

Capstone Project Developer

University Project 📅 January 2026 - May 2026 📍 Chicago, IL

Designed and led capstone project aimed at increasing mental health awareness among college students, employing surveys and focus groups to collect data and advocating for enhanced mental health services through engagement with faculty and peers.

- Conducted surveys and focus groups, gathering crucial data on mental health perceptions.
- Analyzed findings and presented them effectively, spearheading advocacy for resource improvement.
