STRENGTHS

- ♥ **Safety awareness**
Pre use checks and OSHA aligned habits became part of each shift, helping catch equipment concerns before work continued.
- ⚙️ **Material handling**
Heavy loads moved with care and clear routes. A quiet check of surroundings often prevented avoidable disruption.
- 👥 **Customer service**
Receiving conversations stayed clear and respectful, especially when explaining rejected materials or deductions to customers.
- ✓ **Dependability**
Consistent attendance supported steady yard coverage. Supervisors could count on assigned work being completed without constant follow up.
- ✂️ **Adaptability**
When priorities changed, tasks were reorganized calmly. Cross training made it easier to support receiving and processing needs.

SKILLS

- General labor Heavy manufacturing
- Scrap metal handling
- Forklift operation
- Equipment inspections
- OSHA safety Housekeeping
- Vehicle preparation
- Customer service Material sorting

SUMMARY

Production and **general labor** professional with two years of experience supporting **heavy manufacturing**, scrap metal handling, vehicle preparation, forklift operations, equipment inspections, and customer facing receiving work. Performs physically demanding yard duties with steady attention to OSHA **safety procedures**, housekeeping, material movement, sorting, weighing support, and daily equipment checks. Follows written and oral instructions, adapts when priorities shift, and works independently **without constant supervision**. Communicates clearly with customers about accepted materials, rejected items, and applicable deductions. Dependable attendance, extended standing and walking stamina, careful defect reporting, and cross training across receiving and processing functions support safe, orderly operations. Practical experience can help maintain productive yard flow, protect coworkers and customers, and keep incoming materials moving accurately.

EXPERIENCE

Production Laborer, Scrap Metal Operations

Bayou Industrial Recycling 📅 October 2025 - Present 📍 Pasadena, TX

- Supports daily scrap receiving and processing across a busy industrial yard. Handles material movement, **vehicle preparation**, housekeeping, equipment checks, and **customer communication** while following documented procedures and OSHA aligned safety practices. Works independently, reports exceptions, and coordinates time sensitive information with supervisors.
- Sorted incoming scrap and identified unacceptable materials during receiving inspections for accurate customer guidance.
 - Performed pre use **forklift** checks and reported equipment defects before yard operations began each shift.
 - Prepared **vehicles** by removing **designated parts** and fluids using documented procedures and safe handling practices.
 - Swept work areas and cleared grounds, keeping traffic paths orderly during continuous yard activity.
 - Communicated accepted materials, rejected items, and **deductions** clearly while supporting a respectful customer experience.
 - Recorded receiving details and exceptions, giving supervisors current information for follow up decisions.

Yard Laborer, Heavy Manufacturing Support

Lone Star Construction Materials 📅 September 2024 - September 2025 📍 Deer Park, TX

- Provided hands on yard support for construction material receiving, staging, inspection, and housekeeping. Operated material handling equipment within training limits, followed written and **oral instructions**, maintained **dependable attendance**, and adjusted daily work as priorities changed. Supported safe production through careful observation and clear reporting.
- Moved heavy materials across yard areas with forklift support, maintaining clear routes for coworkers and vehicles.
 - Inspected incoming loads for condition and classification, directing exceptions to supervisors for review.
 - Completed daily equipment observations and documented defects before continuing assigned **material handling** work.
 - Removed designated vehicle parts and **fluids** during preparation tasks, following safety instructions and spill controls.
 - Maintained clean grounds through sweeping, shoveling, and prompt removal of scattered material.
 - Supported **customers** and drivers with clear directions, receiving information, and calm answers during busy periods.

MY CAREER

● Production Laborer, Scrap Metal Operations at Bayou Industrial Recycling (11 Months)

● Yard Laborer, Heavy Manufacturing Support at Lone Star Construction Materials (1 Years)

PROJECTS

Receiving Yard Safety Refresh 📅 2026

A small housekeeping issue can slow an entire yard. Reviewed receiving paths, equipment check routines, and material staging practices during daily work, then applied clearer cleanup habits and defect reporting steps. Resulting workflow supported safer movement and more orderly receiving activity.

Vehicle Preparation Workflow 📅 2025

Vehicle preparation rewards patience because overlooked parts or fluids create later trouble. Supported organized removal tasks, sorting, and documentation practices that helped keep material processing consistent while protecting coworkers, customers, and surrounding work areas.

LEADERSHIP & AWARDS

- Recognized by supervisors for dependable attendance and consistent completion of physically demanding yard assignments.
- Trusted with cross training across receiving, material handling, housekeeping, and vehicle preparation support functions.
- Maintained OSHA 10 Hour General Industry qualification while applying safe work habits during daily operations.

EDUCATION

High School Diploma

Sam Rayburn High School 🎓 GPA: 4.0 📅 2024 📍 Pasadena, TX

Coursework: Workplace safety, industrial operations, technical communication, physical education

CERTIFICATIONS

- OSHA 10 Hour General Industry 📅 2025
- Forklift Operator Safety Training 📅 2025

TECHNICAL SKILLS

- **Material Handling Equipment:** Forklifts, pallet jacks, industrial equipment
- **Scrap Processing:** Scrap sorting, material classification, vehicle preparation
- **Safety Standards:** OSHA procedures, safety meetings, hazard awareness
- **Yard Housekeeping:** Sweeping, shoveling, grounds clearing
- **Equipment Inspection:** Pre use checks, defect reporting, daily inspections
- **Receiving Operations:** Incoming scrap inspection, weighing support, load review
- **Customer Service:** Material acceptance guidance, deduction explanations, driver support
- **Fluid Handling:** Fluid removal, spill controls, designated part removal
- **Work Instructions:** Written instructions, oral instructions, documented procedures
- **Production Support:** Heavy manufacturing, construction materials, cross training

PROFESSIONAL AFFILIATIONS

- Industrial yard operations, supporting safe material flow and orderly shared work areas.
- Construction material handling, contributing dependable labor support during changing daily priorities.
