STRENGTHS

- Critical Thinking**
Applied critical thinking skills to assess complicated patient situations, yielding better real-time decisions during emergency events.
- Patient Advocacy**
Became a trusted advocate for family concerns, which led to robust trust-building between parents and healthcare providers.
- Team Collaboration**
Created a supportive environment among colleagues which fostered open communication, making teamwork essential during challenging care scenarios.
- Emotional Support**
Provided comfort to anxious families during hospital visits, facilitating difficult discussions regarding infant care and recovery processes.
- Effective Communication**
Engaged clearly with families and teammates alike, ensuring everyone's voices were valued in care decisions.

SUMMARY

Compassionate and skilled Registered Nurse with over two years of experience in neonatal intensive care environments. Demonstrated expertise in managing critical care for infants and providing high-quality patient assessments, planning, and coordination. Certified in AHA BLS and NRP, with a strong focus on delivering individualized care to meet patients' needs. Proven ability to thrive in fast-paced settings, maintaining composure under pressure while effectively collaborating with multidisciplinary teams. Eager to embrace new opportunities within CareLink Health Services to enhance flexibility and contribute to impactful patient care within NICU.

EXPERIENCE

NICU Registered Nurse

CareLink Health Services 📅 January 2025 - Present 📍 Chicago, IL

Provide specialized nursing care to critically ill neonates, ensuring adherence to best practice protocols and safety standards. This role demands precision and dedication, supporting vulnerable patients during their critical stages of development.

- Assess and monitor vital signs, administer medications, and execute tailored therapeutic interventions for individual patient needs.
- Collaborate with healthcare professionals to create and implement comprehensive care plans prioritizing patient safety.
- Participate in bedside procedures, including intubation and central line placements, demonstrating proficiency with ventilators and other critical equipment.
- Educate families on infant care practices and comprehensive discharge planning, improving patient satisfaction significantly.
- Maintain accurate documentation in electronic health records, complying with all regulatory standards.
- Actively engage in interdisciplinary rounds to ensure coordinated patient-centered care.

Registered Nurse

Lakeside Medical Center 📅 June 2024 - December 2024 📍 Chicago, IL

Delivered high-quality nursing care in a bustling Neonatal Intensive Care Unit, adeptly managing a diverse population with complex medical needs. Focused on fostering safe healing environments while enhancing team communications.

- Conducted detailed patient assessments and collaborated with healthcare teams to thoughtfully adjust care plans based on shifting patient conditions.
- Assisted in neonatal resuscitation and stabilization efforts, consistently applying advanced critical care techniques and protocols.
- Provided emotional support and education to families, addressing concerns about their infant's condition with compassion and clarity.
- Monitored medication, fluid, and nutrition management for all patients, ensuring vigilant observation leading to optimal health outcomes.
- Pursued continuous professional development initiatives, both enhancing and updating clinical skills focused on neonatal care.
- Worked closely with pharmacy and dietetics to align medication and nutrition strategies relevant to each patient's specific requirements.
