STRENGTHS

- Communication Skills**
Effectively convey complex information to diverse audiences, ensuring clarity and understanding during critical discussions.
- Mentorship**
Guided peers and less experienced nurses through hands-on support, becoming a reliable resource for professional growth.
- Analytical Thinking**
Collected and interpreted patient data effectively, translating insights into direct improvements in care practices.
- Collaboration**
Fostered teamwork across disciplines, utilizing collective expertise to address patient care challenges efficiently.
- Adaptability**
Quickly adjusted strategies based on evolving clinical needs, maintaining focus on patient-centered care delivery.

SUMMARY

Dedicated Nurse Educator with over 3 years of experience in clinical nursing and staff development within high-acuity medical environments. Holds a Master's degree in Nursing and a current Illinois RN license. Proven track record in leading evidence-based practice initiatives, enhancing nursing staff competencies, and fostering therapeutic relationships with patients and families. Committed to promoting a culture of safety and continuous improvement in patient care through teamwork, collaborative planning, and educational development that drives both staff success and positive patient outcomes.

EXPERIENCE

Nurse Educator

University Project 📅 January 2025 – Present 📍 Chicago, IL

Lead educational initiatives for nursing staff, ensuring high standards of clinical knowledge and patient care delivery. Mentor new nurses, whilst driving quality improvement efforts to elevate care protocols and enhance patient outcomes.

- Designed and executed comprehensive training programs, measurably enhancing clinical skills across nursing teams.
- Led interdisciplinary meetings focused on promoting evidence-based practices, directly influencing patient care standards.
- Established robust mentoring relationships, empowering novice nurses to confidently handle critical care situations.
- Evaluated and improved curricular offerings by incorporating feedback from stakeholders, ensuring alignment with regulatory requirements.
- Championed process improvement projects, effectively reducing complication rates by implementing best practices derived from research evidence.
- Utilized technology-driven solutions to analyze patient data, enhancing overall safety and quality metrics.

Nursing Research Assistant

Academic Research 📅 September 2023 – December 2024 📍 Chicago, IL

Supported faculty-led investigations into innovative patient care methodologies and effective educational strategies for nursing students.

- Contributed to research focused on patient care innovations, analyzing data trends to advocate for practical changes in nursing curricula.
- Collaborated with professors to generate a curriculum intertwining scientific evidence with classroom strategies.
- Conducted needs assessments through surveys, identifying gaps in nursing education and staff training.
- Engaged in cross-functional team sessions aimed at transforming study findings into actionable teaching materials.
- Presented insightful research results at academic conferences, fostering dialogue around enhanced practices in nursing education.
- Reviewed educational outputs, refining them for clarity and effectiveness tailored to diverse learning styles.

Clinical Nursing Developer

Capstone Project 📅 January 2023 – August 2023 📍 Chicago, IL

Focused on advancing patient education techniques, designed strategies to enhance communication between healthcare providers and families.

- Developed engaging workshops aimed at improving patient comprehension of treatment therapies and health maintenance.
- Established systems for collecting patient feedback, allowing direct integration into future educational endeavors.

MY CAREER

- Nurse Educator at University Project (1.4 Years)
- Nursing Research Assistant at Academic Research (1.2 Years)
- Clinical Nursing Developer at Capstone Project (7 Months)

- Measured educational impact through satisfaction surveys, making iterative enhancements based on results.
- Created clear documentation detailing project methodologies, communicating outcomes to stakeholders and nursing faculty.
- Received commendation for innovative approaches in cultivating deeper patient engagement through educational outreach.
- Demonstrated significant advancements in patient adherence to treatment plans via systematic intervention.
