STRENGTHS

Resident Advocacy

Listened closely during difficult changes, then connected resident preferences with safer daily care.

Clinical Assessment

Focused assessment helped identify subtle changes early, giving physicians and staff useful direction.

Medication Safety

Used medication rights and clear exception notes during busy shifts, keeping follow up visible.

Team Communication

Families and clinicians received timely updates, and peers sought help with complex resident concerns.

Staff Support

Orientation became practical and calm, with newer nurses learning unit routines through real examples.

SUMMARY

Registered Nurse with five years of progressive clinical experience, including more than three years serving older adults in skilled nursing, **long term care**, rehabilitation, dementia care, and secure memory support. Completes admission and daily assessments, maintains **electronic documentation**, administers medications and treatments using medication rights, and responds to changes in symptoms, vital signs, laboratory findings, and functional status. Applies standard precautions, infection control, fall prevention, skin integrity measures, diabetic protocols, safe transfers, and positioning equipment. Communicates clearly with residents, families, physicians, pharmacy teams, and colleagues. Supports quality reviews, care conferences, protocol development, **new employee orientation**, and resident centered safety. Active **Colorado RN license** and current CPR certification support dependable care across day, evening, night, weekend, and holiday schedules.

EXPERIENCE

Registered Nurse, Long Term Care

Aspen Grove Skilled Nursing 📅 May 2023 - Present 📍 Westminster, CO

Leads daily nursing care for long term and rehabilitation residents, supporting assessment, medication administration, electronic records, safety interventions, clinical communication, quality review, and unit orientation.

- Coordinated rehabilitation care plans with residents, families, physicians, and pharmacy teams.
- Completed **admission assessments** and daily reviews within electronic health records.
- Administered **medications** using **five rights** and documented exceptions for follow up.
- Applied fall prevention, skin integrity, transfer, positioning, and **infection control** measures.
- Communicated resident changes through focused assessments, **vital signs**, **symptoms**, and laboratory findings.
- Reviewed care records and oriented newer staff to dependable unit practices.

Registered Nurse, Skilled Nursing

Front Range Rehabilitation Center 📅 July 2021 - April 2023 📍 Wheat Ridge, CO

Delivered **skilled nursing** for post acute and long term residents, with focus on clinical assessment, medication and treatment records, cognitive support, safe equipment use, care conferences, and diabetic protocols.

- Delivered post acute nursing care for rehabilitation and long term **residents**.
- Monitored **vital signs**, symptoms, laboratory results, and functional changes during recovery.
- Maintained electronic medication and treatment records with timely clinical updates.
- Used **standard precautions**, **equipment cleaning**, waste disposal, and safe supply practices.
- Supported residents with cognitive impairment through structured, respectful communication.
- Contributed to care conferences covering falls, medications, and **diabetic protocols**.

LEADERSHIP & AWARDS

- Recognized for dependable resident care during rehabilitation and long term nursing assignments.
- Selected to orient newer staff and share practical unit procedures with peers.
- Trusted to contribute clinical observations during care reviews and resident conferences.
