

Svetlana Greer

Nurse Intern

 (312) 555-0198  svetlana.greer@example.com  linkedin.com/in/svetlanagreer  1234 Oak Street, Chicago, IL 60614

STRENGTHS

-  **Empathy**
Displayed genuine concern for patients during stressful moments, earning trust and comfort needed for recovery.
-  **Communication**
Effectively communicated patient needs promptly within the team, ensuring swift responses for care adjustments.
-  **Adaptability**
Adjusted quickly to unexpected patient situations; maintained calm while ensuring procedural integrity and care quality.
-  **Team Collaboration**
Worked harmoniously with fellow students and nurses; supported each other's growth and improved team synergy.
-  **Critical Thinking**
Applied critical reasoning in clinical decisions, enhancing problem-solving and enriching care pathways.

EXPERIENCE

Nursing Student Intern

University Research Lab  January 2025 - Present  Chicago, IL

Scope includes providing direct patient support, engaging in complex assessment tasks, and collaborating with clinical staff. Work focused on delivering quality care aligned with pediatric cardiac protocols under nurse supervision.

- Conducted patient assessments to contribute to individualized care plans alongside registered nurses.
- Engaged actively in vital signs monitoring and provided essential patient care, improving overall competencies.
- Collaborated with multidisciplinary teams to enhance health outcomes across pediatric patient populations.
- Ensured safety during patient transport; followed established care protocols and measures.
- Attended regular training sessions to expand knowledge on pediatric cardiac procedures and advancements.
- Meticulously kept accurate documentation of patient encounters, underscoring clinical accountability.

MY CAREER

● Nursing Student Intern at University Research Lab (1.4 Years)

● Capstone Project Developer at Academic Research Project (8 Months)

Capstone Project Developer

Academic Research Project 📅 September 2025 - May 2026 📍 Chicago, IL

Focused on developing research aligned with pediatric cardiac health initiatives. Responsibilities included crafting methodologies and synthesizing extensive literature reviews.

- Developed a comprehensive capstone examining pediatric cardiac health trends and intervention outcomes.
- Presented research findings effectively, receiving accolades from faculty for thorough analysis and clarity.
- Employed statistical tools for data interpretation and assessed implications on pediatric care practices.
- Collaborated dynamically with peers on simulated patient care scenarios, bridging theory with practical application.
- Facilitated peer feedback discussions refining both project outcomes and personal presentation proficiency.
- Managed timelines efficiently ensuring all deliverables met stringent academic standards.
