SUMMARY

Certified **Nurse Practitioner** with six years of advanced practice experience across **hospital medicine, critical care**, intensive care, and complex inpatient care. Provides overnight evaluation and management for acutely ill adults, using focused assessment, diagnostic review, clinical judgment, and timely escalation for changing conditions. Coordinates care with hospitalists, nurses, pharmacists, respiratory therapists, consultants, case managers, outpatient clinicians, and post acute partners. Uses Epic EHR for clinical review, orders, medication reconciliation, documentation, pending result tracking, and handoff preparation. Holds active Florida APRN licensure, AANP certification, current BLS and ACLS credentials, and a valid **Florida driver's license**. Offers dependable nocturnist coverage, clear communication, and safe transitions across inpatient and post acute settings.

EXPERIENCE

Hospitalist Nurse Practitioner, Nocturnist

Gulfview Regional Medical Group 📅 October 2024 to Present 📍 Gainesville, FL

Provides overnight advanced practice coverage for adult medical inpatients, supporting busy **hospitalist** operations, safe decisions, and continuity across daytime, outpatient, and post acute care.

- Prioritized **overnight** symptoms and cross cover needs across adult medical inpatient panels.
- Reviewed laboratory and imaging findings, then escalated unstable cases to hospitalists.
- Used **Epic EHR** for documentation, medication histories, pending results, and handoffs.
- Coordinated urgent decisions with nurses, pharmacists, respiratory therapists, and specialty services.
- Communicated unresolved discharge issues with **outpatient** and **post acute** care partners.
- Maintained BLS, ACLS, **Florida APRN**, and AANP credentials through continuing education.

Nurse Practitioner, Hospital Medicine

Suncoast Acute Care Associates 📅 July 2022 to September 2024 📍 Ocala, FL

Managed adult inpatient follow up, admissions, and changing medical conditions while improving documentation clarity, escalation practices, and continuity with discharge partners.

- Managed adult follow up using examination findings, diagnostics, medications, and consultant recommendations.
- Conducted admissions and interval evaluations, identifying deterioration requiring higher acuity monitoring.
- Standardized Epic problem lists, medication reconciliation, and transition notes for clearer priorities.
- Coordinated discharge barriers with case management and rehabilitation services before transfer.
- Delivered concise handoffs covering pending studies, treatment response, and contingency plans.
- Completed continuing education in **hospital medicine** and **critical care** for complex patient management.

Nurse Practitioner, Critical Care

Lakeside Critical Care Practice 📅 October 2020 to June 2022 📍 Orlando, FL

Delivered advanced practice care in an **ICU** environment, supporting intensivist led treatment, rapid recognition of deterioration, accurate records, and safe transfers.

- Monitored hemodynamic, respiratory, neurologic, and laboratory changes in ICU patients.
- Synthesized bedside assessments with diagnostic trends to support urgent intervention decisions.
- Used **Epic EHR** for serial assessments, therapy review, and transfer documentation.
- Coordinated treatment priorities with intensivists, nurses, respiratory therapy, and pharmacy.

STRENGTHS

- 🌙 **Overnight Clinical Judgment**
During changing nighttime conditions, prioritized urgent findings and escalated appropriately, giving physicians confidence in timely decisions.
- ♥ **Clear Care Handoffs**
Structured pending issues and contingency plans for daytime teams, a habit that made follow up more reliable.
- 📌 **Epic Documentation**
Used clinical review, medication reconciliation, and focused notes to keep inpatient information clear for each care team.
- 👥 **Team Coordination**
Worked closely with nurses, pharmacy, respiratory therapy, and consultants when a patient needed several perspectives.
- ✍ **Safe Transitions**
Connected discharge readiness with outpatient and post acute needs, keeping unresolved clinical questions visible.

MY CAREER

0
MONTHS

- Prepared transfer summaries covering active problems, interventions, tests, and monitoring needs.
- Built **critical care** judgment through emergency response and interprofessional communication.

Nurse Practitioner, Inpatient Medicine

North Central Inpatient Services 📅 September 2018 to September 2020 📍 Gainesville, FL

Started advanced practice work in supervised inpatient medicine, building reliable skills in assessment, documentation, urgent response, patient prioritization, and coordinated decision making.

- Completed inpatient assessments and presented findings to **hospitalist physicians** for decisions.
- Managed stable follow up visits, monitoring response and surfacing abnormal findings.
- Developed Epic proficiency through orders, reconciliation, results tracking, and discharge information.
- Supported rapid response evaluations using **BLS** and **ACLS** principles within scope.
- Explained care plans clearly and routed physician questions to responsible clinicians.
- Established dependable handoff, prioritization, documentation, and interdisciplinary coordination habits.

PROJECTS

Overnight Inpatient Continuity Initiative 📅 2025

A pending result could change a morning plan. Built clearer Epic handoff practices that connected overnight assessments, unresolved issues, and daytime follow up across inpatient and post acute teams.

Critical Care Transfer Readiness Workflow 📅 2022

A transfer begins before a patient leaves ICU. Structured summaries around active problems, recent interventions, pending tests, and monitoring needs for receiving hospital medicine teams.

LEADERSHIP & AWARDS

- Recognized by hospitalist colleagues for dependable overnight escalation and clear clinical handoffs.
- Selected by interdisciplinary peers as a trusted resource for complex inpatient coordination.
- Advanced from supervised inpatient practice into independent nocturnist and critical care coverage.
