SUMMARY

Dedicated Nurse Practitioner with extensive experience in delivering healthcare services in fast-paced environments. Proven ability to conduct health assessments and manage medical records efficiently for military service members. Strong communication skills enhance collaboration with teams and ensure thorough patient evaluations. Committed to providing quality care and supporting the health readiness of military personnel through effective assessment and documentation. Looking forward to joining HealthPro Solutions to continue this mission with utmost dedication.

EXPERIENCE

Nurse Practitioner

University Health Services 📅 June 2024 - Present 📍 Champaign, IL

Managed a busy clinic while advancing student health programs. Conducting comprehensive health assessments aligns perfectly with military incapacity protocols, ensuring each member's readiness is documented and addressed. Enhanced programming by integrating tailored care approaches for diverse student needs across campus health services.

- Conducted comprehensive health assessments for students and staff, ensuring thorough understanding of medical history.
- Collaborated with a multi-disciplinary team, providing immediate care and referrals for complex cases affecting military individuals.
- Documented patient interactions and treatment plans in electronic health records, maintaining confidentiality and compliance standards.
- Engaged in health education initiatives, promoting wellness among the campus community to support military preparation.
- Participated in training programs enhancing skills in urgent care and primary care practices relevant to military personnel.
- Organized health screenings and workshops that improved overall health awareness pertaining to service member welfare.

Nurse Practitioner Intern

Springfield Medical Center 📅 January 2023 - May 2024 📍 Springfield, IL

Supported multiple practitioners in expedited healthcare delivery within a bustling outpatient clinic. Focused on gaining valuable experience with direct impact on military personnel's health assessments and record documentation. Ensured all procedures adhered to regulations pertinent to military occupational health requirements.

- Supported licensed practitioners in delivering patient care in a high-volume primary care setting.
- Conducted patient interviews to aggregate essential information regarding medical histories and concerns.
- Assisted in developing intricate treatment plans aligned with military behaviors based on collaborative efforts.
- Participated in educational sessions focused on military health protocols to ensure best practices were followed.
- Contributed to outreach serving local active duty personnel, enhancing their access to necessary health resources.
- Utilized electronic medical records systems effectively for documenting care, optimizing follow-ups for military mandates.

Nurse Practitioner Trainee

HealthCare Innovations 📅 June 2022 - December 2022 📍 Remote

Assessed remote health management aims while aiding operations of mobile medical units. Contributed to telehealth consultations by adapting methods suitable for service personnel deployed away from traditional facilities. Strengthened responses to medical inquiries including those revolving around military norms.
