

Jaxon Beltran

Machine Learning Intern

JUNE 22, 2026

Minnodi LLC
Hiring Manager

Dear Hiring Manager,

I am excited to apply for a Machine Learning Intern position at Minnodi LLC, where this opportunity aligns seamlessly with my burgeoning expertise in data science and artificial intelligence, which I have cultivated during my undergraduate studies at the University of Illinois and through various project experiences.

Collaborating as a Machine Learning Intern, I proactively contributed to a university project, adeptly using Python and TensorFlow to engineer predictive models for student performance; this endeavor enhanced my analytical skills significantly while achieving a remarkable 15% increase in prediction accuracy.

Additionally, my time spent during a hackathon developing a robust data visualization tool using D3.js allowed me to present complex public health datasets effectively, which garnered recognition for our team's best presentation, demonstrating my capability to distill intricate information into captivating narratives.

This ongoing intrigue in artificial intelligence pushes me to continually explore innovative approaches, as I embrace challenging data sets and strive to implement creative algorithms that drive impactful solutions in collaborative environments.

Notably, I believe my strong communication skills and eagerness to learn will foster effective teamwork and contribute substantially to the continued success of Minnodi LLC's mission in advancing AI initiatives.

Thank you for considering my application.

Sincerely,

Jaxon Beltran
