

Silas McCormick

Onsite AI Engineer: RAG, Bedrock & AWS Specialist

JUNE 17, 2026

Tech Innovations
Hiring Manager
Naperville, IL

Dear Hiring Manager,

I am thrilled to apply for the Onsite AI Engineer position at Tech Innovations, as my background in developing sophisticated AI systems blends seamlessly with the role's demands, igniting a spark of possibility within me that I cannot ignore as I delve into creating chatbots and AWS pipelines.

At Tech Solutions Inc., I have led teams on innovative projects, delivering AI-driven chatbot solutions that resonate with clients; our collaborative efforts have brought new features to fruition, showcasing adaptability and a passion for technology that can propel your company to new heights.

One memorable moment was when we faced uncertainty about deployment schedules, yet through teamwork and persistence, we forged a successful outcome that improved our service efficiency; this experience crystallized my belief in the powerful synergy of collaboration.

With certifications in AWS and AI, along with experience in Python development, I have honed my ability to weave complex systems into functional applications, positioning myself ideally to meet the challenges presented by this role; innovation is not just an abstract concept for me, but rather, it serves as an everyday pursuit.

I feel confident that my proactive nature and enthusiastic approach will add value to your team and lead to groundbreaking advancements in AI at Tech Innovations.

Looking forward to connecting soon

Thanks,

Silas McCormick
