SUMMARY

Detail-oriented Operations Data Analyst with over 6 years of experience in data analytics and business intelligence. Proficient in Power BI, Excel, and SQL, with a solid understanding of supply chain processes and data governance principles. Committed to delivering actionable insights that drive operational improvements and strategic decision-making. Adept at collaborating with cross-functional teams to enhance data visibility and reporting consistency. Experienced in developing analytical models and dashboards that facilitate effective demand planning and inventory management. Passionate about leveraging emerging technologies, including AI, to optimize business performance and automate reporting processes.

EXPERIENCE

Operations Data Analyst

TechnoMetrics Inc. 📅 January 2019 - Present 📍 Chicago, IL

Focus on driving data-informed decisions across diverse operational areas, including demand planning and logistics. Responsible for delivering accurate reporting and insightful analytics to improve overall performance.

- Deliver timely reports that enhance operational efficiency.
- Enhance reporting dashboards using Power BI while ensuring data reliability.
- Collaborate with cross-functional teams to identify analytical needs.
- Develop analytical models that support consistent tracking of performance metrics.

Business Intelligence Analyst

Insightful Analytics Group 📅 June 2016 - December 2018 📍 Chicago, IL

Provided analysis and intelligence solutions to inform business strategies and operations. Maintained data integrity and worked closely with stakeholders to meet analytic demands.

- Created engaging dashboards that visualized complex datasets for easier conclusions.
- Worked diligently with various departments to ensure their reporting needs were met.
- Streamlined workflows that improved data collection and analysis processes.
- Conducted training sessions on data tools like Tableau and SQL.

Data Analyst Intern

Analytics Co. 📅 May 2015 - August 2015 📍 Remote

Gained practical experience assisting full-time analysts with data tasks and project initiatives within a fast-paced environment.

- Supported the development of dynamic reports to reflect departmental KPIs.
- Participated in data validation efforts to ensure accuracy before dissemination.
- Interacted regularly with senior analysts to refine reporting tools.
- Assisted in ad-hoc analysis to determine best practices.

LEADERSHIP & AWARDS

- Employee of the Month for outstanding data reporting work in April 2021.
- Recipient of the Innovation Award for implementing AI solutions that optimized operations in November 2022.
