STRENGTHS

- Adaptable Problem Solver**
Successfully navigated complex technical issues, gaining recognition among peers as a resource for challenging problems.
- Forward-Thinking Innovator**
Consistently sought out new optical technologies, leading attempts to integrate those beneficial for the organization.
- Effective Cross-Team Collaborator**
Worked alongside various departments, emphasizing teamwork on critical projects that advanced objectives efficiently.
- Dedicated Educator**
Regularly mentored new engineers; providing them with valuable insights and guidance based on real-world experiences.
- Comprehensive Quality Focus**
Committed to delivering quality results, ensuring all documentation and processes met rigorous industry guidelines.

SKILLS

Optical Networking

DWDM Deployment

Network Troubleshooting

Optical Transmission Automation

Network Analysis BGP OSPF

SONET Optical Planning Tools

IPv4 & IPv6 TCP TACACS IPSEC

SUMMARY

Results-driven Optical Network Engineer with over 4 years of extensive experience in network operations and support, specializing in deployment and management of DWDM technologies. Proven expertise in troubleshooting optical systems, complemented by a strong foundation in network analysis. Skilled in utilizing advanced optical planning tools and methodologies to enhance network performance and reliability. Adept at collaborating with cross-functional teams to deliver optimal optical solutions that meet business needs. Eager to leverage knowledge and skills in new challenges, ensuring continuous improvement in the optical networking space.

EXPERIENCE

Optical Network Engineer

OptiWave Solutions  April 2022 - Present  Seattle, WA

Oversaw large-scale DWDM networks deployment, ensuring excellent operational performance and customer satisfaction. Played a crucial role in network optimization using advanced modeling techniques.

- Led DWDM network deployments that improved bandwidth capacity significantly.
- Utilized optical modeling tools for configuration analysis, reducing latency.
- Troubleshot DWDM systems within strict service-level agreements; maintained uptime metrics.
- Collaborated on automation solutions, enhancing overall network efficiency.
- Maintained architecture documentation to comply with industry standards.
- Trained junior engineers on fundamentals of optical networking and best practices.

Network Engineer

FiberNet Technologies  January 2020 - March 2022  Portland, OR

Managed projects for large-scale optical networks, fostering seamless infrastructure transformations. Excelled at analyzing network protocols to improve data traffic flow.

- Managed rollout of large-scale optical networks, integrating with existing systems.
- Analyzed performance leveraging BGP, OSPF protocols for traffic optimization.
- Enhanced optical transmission systems, boosting data transfer rates remarkably.
- Developed monitoring tools to enable proactive issue resolution.
- Coordinated stakeholder meetings for translating requirements into tech solutions.
- Contributed to cross-departmental initiatives aimed at improving network quality.

Junior Network Engineer

Quantum Networks  June 2018 - December 2019  Tacoma, WA

Supported deployment and upkeep of DWDM systems, achieving commitment to uptime and enhanced learning opportunities. Collaborated actively to welcome new advancements in optical technology.

- Assisted in deploying DWDM systems, increasing network capacity effectively.
- Conducted maintenance for optical lines, reaching high uptime targets.
- Provided support training for junior staff on networking protocols.
- Engaged in project documentation to facilitate team knowledge sharing.
- Steered training material development on optical troubleshooting strategies.

LEADERSHIP & AWARDS

- Certified Optical Network Professional (CONP) - 2026
- Cisco Certified Network Associate (CCNA) - 2025

EDUCATION

Bachelor's Degree in Telecommunications Engineering

University of Washington  GPA: 3.9  2026  Seattle, WA

Coursework: Network Design, Optical Systems, Wireless Communications, Telecommunications Policy

MY CAREER

● Optical Network Engineer at OptiWave Solutions (4.2 Years)

● Network Engineer at FiberNet Technologies (2.2 Years)

● Junior Network Engineer at Quantum Networks (1.5 Years)

CERTIFICATIONS

- Certified Optical Network Professional (CONP) 📅 2026
- Cisco Certified Network Associate (CCNA) 📅 2025

TECHNICAL SKILLS

- **Optical Technologies:** DWDM, SONET, Optical Planning Tools
- **Networking Protocols:** BGP, OSPF, TCP, IPv4, IPv6
- **Network Monitoring Tools:** NetFlow, SNMP, TACACS
- **Virtual Private Networks:** IPSec, VPN technologies
- **Transmission Systems:** OC3, OC48, DS1, DS3
- **Troubleshooting Techniques:** Latency Reduction, Uptime Optimization
- **Documentation Standards:** Technical Writing, Compliance Specifications
- **Automation Technologies:** Scripts, Monitoring Platforms
- **Quality Improvement Methods:** Continuous Integration, Process Optimization
- **Team Collaboration Tools:** Slack, Project Management Software

PROFESSIONAL AFFILIATIONS

- Member, Optical Networking Association - Since 2022
- Volunteer, STEM Outreach Program - 2021 to Present
