SUMMARY

Dynamic optometrist dedicated to enhancing patient care through comprehensive evaluations and personalized treatment plans. With an O.D. degree and state licensure, a commitment to ethical practice and life-long learning defines this approach. Skilled in utilizing state-of-the-art technology for eye exams and diagnostics, ensuring thorough assessments complemented by compassionate communication. Fostered strong relationships with diverse patient populations through diligent education about ocular health and proactive care. Eager to leverage clinical expertise and interpersonal skills in delivering exceptional vision care as part of a forward-thinking team.

EXPERIENCE

Optometrist

Visionary Eye Care  June 2025 - Present  Champaign, IL

Leverages extensive training and advanced equipment in providing high-quality eye care services, meeting diverse patient needs effectively. Manages patient examinations, diagnoses conditions, and creates detailed treatment strategies aligned with optimal vision standards.

- Delivered comprehensive eye exams tailored to each patient's needs, leading to precise diagnosis.
- Diligently managed treatment plans for ocular diseases, focusing on patient-centered outcomes.
- Explained lens prescriptions clearly, helping patients understand their options and benefits.
- Administered pre- and post-operative care for patients undergoing surgical procedures, enhancing recovery processes.
- Educated patients on preventive care strategies, contributing to long-term eye health.
- Maintained meticulous patient records to support care continuity and regulatory compliance.

Optometry Intern

Visionary Eye Care  January 2025 - May 2025  Champaign, IL

Gained practical experience under licensed optometrists, supporting clinical operations and patient education initiatives during internship tenure. Contributed actively to maintaining the quality of care and clinic efficiency.

- Assisted in conducting eye exams, enhancing comfort and understanding for patients throughout the process.
- Contributed to diagnosing ocular issues and developing management protocols, working collaboratively with physicians.
- Engaged with individuals to communicate the significance of eye health and follow-up appointments.
- Aided healthcare providers in documentation practices, emphasizing accuracy and confidentiality.
- Joined observations during surgeries, elevating awareness of procedural care and protocol format.
- Enhanced interpersonal skills by creating supportive environments encouraging patient inquiries.
