Hiring Manager
Pediatric Partners
Dallas, TX

Dear Hiring Manager,

I am excited to apply for the Pediatric Physical Therapist role at Pediatric Partners, as I see this opportunity perfectly matches my skills and fervor. Helping children achieve mobility is not just work for me; it's a passion that drives each step I take.

Pediatric Partners embodies a mission that resonates deeply with my values. As I dove into your initiatives, it became evident how committed you are to family-centered care—offering support that creates meaningful changes. In my internship, I thrived while collaborating with interdisciplinary teams, ensuring therapy was both engaging and effective.

During my time at the University Research Lab, I developed individualized treatment plans that led to children achieving higher mobility outcomes. Engaging families was key; we worked together, incorporating fun into their daily routines. Watching a child thrive is an unmatched reward, and I find joy every time.

The collaboration doesn't stop at children; I enjoyed connecting with parents, sharing insights and encouraging their involvement. This role wields the power to effect transformative changes in lives, and I am eager to integrate my experiences and passion into the team at Pediatric Partners.

I appreciate the importance of surrounding oneself with dedicated colleagues who share a vision of improved outcomes. At last year's conference, my presentation on adaptive equipment was met with enthusiasm, and I cherish the space for innovation and cooperation within your workspace.

Thank you for considering my application.

Sincerely,

Stella Massey
