SUMMARY

Dedicated Pharmacy Informatics Manager bringing over five years of expertise in healthcare technology and pharmacy operations. Focused on enhancing clinical efficiency by implementing scalable automation solutions and efficient information technology systems. Collaborated seamlessly with multidisciplinary teams, optimizing EMR frameworks and streamlining workflows to elevate patient care quality. Proven capability in managing operational efficacy initiatives while overseeing pharmacist and technician teams, ensuring adherence to safety standards and compliance regulations.

EXPERIENCE

Pharmacy Informatics Manager

Health Innovations 📅 January 2022 - Present 📍 Los Angeles, CA

Overseeing pharmacy automation and informatics strategies to ensure operational excellence within the department.

- Direct vision for integrating technology into pharmacy operations, significantly improving workflow efficiency.
- Reviewed hardware and software options, guaranteeing safe and effective implementations compatible with existing structures.
- Coordinated closely with medical teams, resolving technology-related issues effectively through clear communication.
- Led a diverse team of pharmacists and technicians, guiding clinical automation efforts tailored to enhance patient care.
- Assessed operational procedures consistently, championing improvements that have reinforced patient safety levels.
- Advised on EMR system updates aligning modifications with both clinical practices and operational policy changes.

Pharmacist

MediCare Pharmacy 📅 June 2018 - December 2021 📍 San Diego, CA

Engaged in comprehensive pharmaceutical responsibilities encompassing medication management and staff training.

- Delivered high-quality pharmaceutical services, ensuring optimal therapeutic outcomes through precise medication counseling.
- Collaborated with interdisciplinary teams to develop pharmacy protocols aimed at enhancing patient safety protocols.
- Contributed meaningfully during evaluations of pharmacy automation systems, particularly during vendor selection phases.
- Facilitated training sessions for pharmacy personnel on best practices, integrating concepts of pharmacy informatics to improve service delivery.
- Maintained rigorous compliance with state and federal regulations, preparing the facility for stringent audits effectively.
- Played an active role in quality improvement measures including medication reconciliation processes within the department.

LEADERSHIP & AWARDS

- Recipient of the Pharmacy Excellence Award for innovative contributions to patient safety initiatives.
- Recognized as Employee of the Month for outstanding performance in automated pharmacy systems.
