EXPERIENCE

Pharmacy Research Assistant

University Project 📅 January 2025 - Present 📍 San Francisco, CA

Contributed to research exploring pharmacist-led interventions and their impacts on patient outcomes. Collaborated with cross-functional teams, aiding in data collection and analysis as well as presenting findings clearly. Assisted in implementing workshops designed to enhance peers' patient counseling capabilities.

- Conducted extensive research analyzing over 200 patient surveys regarding medication therapy collaboration.
- Created informative presentations focused on optimizing patient adherence to treatment regimens.
- Organized and led training sessions for peer students on key pharmacy operating systems and effective patient communication.
- Compounded educational resources aimed at chronic disease education for patients using simple language.
- Participated in annual pharmacy conferences, preparing research displays that sparked discussions on student innovations.
- Engaged actively in team training meetings to share effective techniques for enhancing customer interactions.

STRENGTHS

💬 Strong Communication Skills

Effectively communicated complex medical concepts to diverse audiences, fostering understanding and promoting patient engagement.

👥 Customer-Centric Mindset

Cultivated solid relationships with customers by demonstrating empathy and active listening, resolving concerns promptly and courteously.

👯 Team Collaboration

Worked alongside pharmacists and fellow students to create cohesive teamwork approaches that enhanced workflow efficiency.

🔄 Adaptability

Quickly adjusted to new pharmacy technologies, helping peers during technology rollouts to ensure seamless transitions for all staff.

⚖️ Ethical Compliance

Consistently followed regulatory guidelines, prioritizing patient safety and integrity in all pharmacy-related actions.
