EXPERIENCE

Pharmacy Assistant Intern

January 2026 - Present

University Project

Remote

Focused on simulating comprehensive pharmacy operations while enhancing customer service skills. Engaged hands-on with prescription processing, reinforcing compliance with safety protocols. Collaborated within a team structure, implementing feedback loops for service improvements, ensuring real-world application and impactful learning.

- Collaborated with a team to simulate pharmacy operations, focusing on prescription processing and customer service.
- Developed customer interaction scenarios to enhance service delivery skills while maintaining compliance with safety regulations.
- Conducted research on pharmacy best practices and presented findings to classmates, emphasizing customer care and ethical standards.
- Participated in the organization and maintenance of a mock pharmacy area, ensuring a realistic training environment for fellow students.
- Assisted in stocking and managing inventory for project supplies, learning effective merchandise presentation techniques.
- Engaged in role-playing exercises to improve communication and problem-solving skills in customer interactions.

Pharmacy Research Assistant

September 2025 - December 2025

Academic Research

Toledo, OH

Supported a faculty-led research initiative focused on medication adherence by analyzing data and engaging with community pharmacies. Fostered connections while gathering essential insights into patient-pharmacist dynamics, contributing to knowledge sharing on operational challenges.

- Supported a research project on medication adherence among patients, gathering and analyzing data to identify key patterns.
- Assisted in preparing documentation for research findings, ensuring accuracy and adherence to ethical guidelines.
- Engaged with local community pharmacies to understand operational challenges and customer interaction dynamics.
- Collaborated with faculty to design surveys aimed at assessing patient education needs regarding medications.

- Presented research results at a university symposium, enhancing public speaking and presentation skills.
- Contributed to the development of recommendations for improving patient-pharmacist communication.

Pharmacy Tech Developer

March 2025

Hackathon Project

Toledo, OH

Actively developed a prototype pharmacy management application within a competitive hackathon framework, successfully transforming innovative ideas into functional solutions under time constraints but collegiate support. Captured audience attention through impactful visuals and user-centric functionality that addressed real-world issues.

- Participated in a university hackathon focused on creating a pharmacy management app to streamline prescription workflows.
- Designed user interface mockups and user experience flows, incorporating feedback from pharmacy students and professionals.
- Collaborated with a team to present a functional prototype, receiving positive feedback from judges for innovation.
- Conducted market research to identify user needs and preferences for pharmacy-related applications.
- Implemented features for secure patient data management, emphasizing confidentiality and compliance.
- Engaged in post-hackathon discussions to explore potential enhancements and real-world applications of the project.
