EXPERIENCE

Pharmacy Technician Trainee

University Project 📅 January 2026 - Present 📍 Baton Rouge, LA

Support medication dispensing and customer interactions in a simulated pharmacy environment, learning essential operational procedures and safety protocols.

- Assisted in medication dispensing simulations focused on maintaining accuracy and adherence to safety standards.
- Managed inventory tracking for simulated pharmacy operations, ensuring proper organization and stock levels.
- Engaged in customer service training, honing skills in communication and problem-solving in real-time scenarios.
- Participated in workshops emphasizing pharmaceutical calculations for accurate medication preparation.
- Collaborated with classmates on case studies of patient interactions, improving service delivery competencies.
- Gained presentation skills through documenting project outcomes and simulations.

Pharmacy Operations Research Assistant

Academic Research 📅 September 2025 - December 2025 📍 Baton Rouge, LA

Conducted research on pharmacy practices, enhancing knowledge of effective inventory management and ethical patient interactions.

- Researched best practices for pharmacy inventory management, focusing on identifying efficiencies.

STRENGTHS

- 👥 **Customer Service Focused**
Elevated patient interaction experiences through active listening and tailored communication techniques utilizing various training sessions.
- 🤝 **Collaboration Enthusiast**
Fostered teamwork autonomy during group projects, cultivating strong partnerships leading to successful completion of pharmacy assignments.
- 👁️ **Attention to Detail**
Consistently tracked inventory items accurately, ensuring no discrepancies arose within simulated or real environments during training.
- 💡 **Problem Solver**
Applied critical thinking during case studies to resolve complex patient-related issues, improving service effectiveness dramatically.
- 🔍 **Research-Oriented**
Utilized robust analysis methods for gathering data, enhancing project relevance while impacting decision-making visibly.

MY CAREER

- Pharmacy Technician Trainee at University Project (7 Months)
- Pharmacy Operations Research Assistant at Academic Research (3 Months)
- Pharmaceutical Care Project Developer at Course Project (3 Months)

- Contributed to creating training materials targeting new pharmacy technicians' responsibilities.
- Presented research findings at academic conferences, refining public speaking abilities.
- Implemented mock inventory audits that reinforced understanding of stock management strategies.
- Facilitated discussions on ethics within pharmacy through participation in peer-led workshops.
- Employed software tools for analytical purposes, increasing the quality and detail of presentations.

Pharmaceutical Care Project Developer

Course Project 📅 January 2026 - April 2026 📍 Baton Rouge, LA

Developed educational initiatives on patient care and strategies for effective medication management relevant to pharmacy settings.

- Created comprehensive educational materials aimed at improving patient medication adherence and safety practices.
- Executed surveys to collect data on patient comprehension of medication instructions and gather feedback.
- Analyzed survey findings to refine future educational strategies within the pharmacy realm.
- Effectively communicated project results to peers and faculty, gaining commendations for clarity.
- Integrated various technology tools, boosting overall command of project management operations.
- Enhanced teamwork capabilities by collaborating closely throughout the project's lifecycle.
