HealthPlus Rehabilitation
Hiring Manager
HealthPlus Rehabilitation
Chicago, IL

Dear Hiring Manager,

I am excited to submit my application for the Physical Therapist position at HealthPlus Rehabilitation. Working in this esteemed institution perfectly matches my educational background as well as my devotion to enhancing patient care in rehabilitation. Despite facing challenges during my training period, I grew continuously. Fascination with rehabilitation drives me; a passion rooted in personal experience along with professional aspirations.

At HealthPlus Rehabilitation, I am eager to utilize my extensive background in patient care. Throughout my internship, I consistently demonstrated effective treatment applications, producing measurable improvements. I effectively collaborated within a diverse team, focusing on rehabilitation strategies to suit each patient's distinct needs. During this time, I learned that healing is both an art and a science, where empathy plays as crucial a role as technical skill.

My achievements focus on various patient demographics reflect my commitment to the profession. While working on a capstone project for geriatric patients, I crafted innovative therapy plans that catered to their specific needs. The feedback received validated my approach, encouraging further growth. Each session reinforced the idea that physical therapy's impact reaches deeper than mere mobility; it transforms lives.

I believe that promoting physical therapy within communities fosters greater understanding. Being involved in community health fairs allowed me to share insights on rehabilitation methods, bridging gaps between patients and care. This pedagogical aspect of being a therapist excites me immensely. Facilitating discussions about physical health contributes positively to both my growth and the communities I serve.

Joining your team aligns with my desire to be part of a supportive work culture. HealthPlus Rehabilitation offers an environment where I can flourish professionally, while also contributing to patient care excellence. I am eager to share my enthusiasm for physical therapy and all its possibilities. I envision collaborating seamlessly with your skilled staff to help patients regain confidence as they heal.

Thank you for considering my application.

Sincerely,

Riley York
