SUMMARY

Compassionate Physical Therapist with a Master's degree and practical expertise in patient assessment, treatment design, and execution. Focuses on enhancing recovery through personalized therapy programs. Skilled communicator adept at fostering interdisciplinary collaboration to optimize patient education and care outcomes. Constantly pursues knowledge and professional growth, integrating evidence-based practices into all facets of therapy. Demonstrates commitment to mentoring peers and improving practice standards while addressing organizational goals. Engages patients and families effectively, ensuring well-rounded support throughout their rehabilitation journey.

EXPERIENCE

Physical Therapist PRN

HealthFirst Rehabilitation Services 📅 June 2026 - Present 📍 Austin, TX

Provides direct patient care within a dynamic multidisciplinary team to enhance patient outcomes through tailored rehabilitation strategies.

- Evaluated diverse patient populations, creating personalized therapy plans for optimal functional recovery.
- Maintained comprehensive clinical records and accurately processed billing, adhering to compliance guidelines.
- Collaborated with medical teams in discharge planning, equipping patients and families with necessary educational resources.
- Mentored students and supervised ancillary staff, fostering a supportive learning environment.
- Engaged in continuous education and research to incorporate advanced techniques based on clinical evidence.
- Aligned personal objectives with departmental targets, promoting enhanced service delivery and patient care.

Capstone Project Developer

University Project 📅 January 2026 - May 2026 📍 Austin, TX

Led an academic project focusing on developing rehabilitation strategies within therapeutic settings, translating theoretical concepts into real-world applications.

- Created a targeted rehabilitation approach aimed at post-surgery patient mobility enhancement.
- Employed data analysis methodologies to assess procedural efficacy and modify approaches based on feedback.
- Conducted workshops to share innovative practices related to patient engagement and restoration.
- Worked collaboratively with faculty to accrue research findings, presenting the results at health science conferences.
- Documented comprehensive insights regarding methodologies and results, offering promotional materials for future use.
- Recognized for superior presentation skills during the university's health sciences symposium.

Research Assistant

Academic Research 📅 September 2025 - December 2025 📍 Austin, TX

Supported research projects focused on physical therapy impacts, contributing substantially to peer-reviewed publications.

- Assisted in capturing and analyzing data related to aging patients' recovery timelines.
- Conducted interviews that informed ongoing studies under licensed therapist supervision.

Supervisory Skills

Dynamic Multitasking

Time Management

Regulatory Compliance
