SUMMARY

Dedicated Physician Assistant with over two years in family practice settings. Skilled in managing high patient volumes efficiently while ensuring quality care and satisfaction. Capable of effectively collaborating with multidisciplinary healthcare teams, enhancing overall patient outcomes. Known for continuous learning and adaptation to evolving healthcare environments. Eager to contribute strong clinical acumen and commitment to excellent patient care at Black Women's Health Center. Proven ability to handle multiple responsibilities in fast-paced settings while maintaining high standards of care.

EXPERIENCE

Physician Assistant Intern

University Research Lab  June 2025 - Present  Madison, WI

- Supportive role within a dynamic healthcare team during clinical rotations focusing on family medicine, accommodating high volumes of patients. Directly involved in patient assessment and care delivery while upholding best practices in medical documentation.
- Collaborated with healthcare professionals to provide direct patient care during shifts focused on family medicine.
 - Managed patient encounters, averaging over twenty patients each shift, ensuring adherence to high treatment protocols.
 - Assisted in evaluations of patient histories and physical examinations to form effective care plans based on individual needs.
 - Participated in creating health education programs targeted at underserved communities, promoting ongoing health awareness.
 - Accurately documented precise patient interactions and care plans within electronic medical records systems.
 - Engaged in continuous professional development through workshops and seminars aimed at enhancing clinical effectiveness.

Clinical Assistant

Health & Wellness Center  January 2025 - May 2025  Green Bay, WI

- Provided essential support in a bustling family practice setting, working closely with diverse clinical staff. Played a key role in fostering smooth workflows that contributed to improved patient experiences and operational efficiencies.
- Supported clinical staff by delivering comprehensive care to various patient demographics.
 - Conducted preliminary assessments and collected vital signs to streamline clinic operations during high-volume periods.
 - Assisted in documentation and patient follow-up processes, heightening patient satisfaction and consistency of care.
 - Cultivated communication skills through frequent interaction with patients and addressing their queries regarding treatments.
 - Helped facilitate patient referrals and subsequent appointments, ensuring timely access to necessary services.
 - Contributed constructively in team meetings to refine strategies for patient care and enhance operational efficiency.
