SUMMARY

Driven Physician Assistant with over 4 years focused on pain management within interdisciplinary collaborative environments. Proven ability to lead consultations for chronic and acute cases while enhancing best practices in patient care. Expertly developed pain educational programs for staff, fostering improved clinical competencies. Played an integral role in establishment of departmental pain policies that aligned with patient-centric approaches. Recognized for commitment to a culture that prioritizes patients and their families—ensuring compassionate and high-quality healthcare delivery. Passionate about innovative pain management techniques, constantly adapting to meet emerging challenges.

EXPERIENCE

Physician Assistant

HealthFirst Hospital March 2024 - Present Brooklyn, NY

As a skilled Physician Assistant at HealthFirst Hospital, responsible for managing acute and chronic pain management strategies while collaborating with anesthesiologists and nursing staff. Enhanced effectiveness through interprofessional communication and continuous education initiatives for the health team.

- Lead consultations for both acute and chronic pain management, collaborating effectively with diverse healthcare professionals.
- Developed and implemented robust pain management protocols, standardizing care across service lines.
- Facilitated training sessions for hospital staff, boosting knowledge regarding pain handling procedures.
- Acted as immediate resource for all queries around pain management among healthcare teams.
- Improved patient satisfaction scores by integrating feedback mechanisms into pain management services.
- Engaged actively in strategic meetings, collectively focusing on quality improvement in patient care delivery.

Physician Assistant

Queens Medical Center June 2022 - February 2024 Queens, NY

Managed a varied caseload in a high-volume orthopedic clinic centered on delivering quality patient evaluations and tailored treatment plans. Fostered teamwork across disciplines to ensure comprehensive patient support while contributing to operational successes.

- Oversaw evaluations and treatment strategies for an extensive array of patients, maintaining an empathetic approach.
- Collaborated successfully with multidisciplinary teams to review ongoing treatments and customize plans for patients.
- Led workshops aimed at educating patients and healthcare workers on effective pain management methodologies.
- Contributed significantly towards producing updated departmental guidelines relevant to pain management advancements.
- Participated in initiative primed for reducing wait times, helping achieve notable improvement in patient flow.
- Mentored new physician assistants, providing guidance and support throughout their onboarding journey.
