Health First Care
Hiring Manager
Medford, OR
97501

Dear Hiring Manager,

I am thrilled to apply for the Physician Assistant or Nurse Practitioner role at Health First Care, a position that perfectly matches my diverse skills and fervor, striking a chord with my commitment to deliver exemplary patient care in both surgical assistance and outpatient settings.

Understanding the responsibilities of surgical assists in the OR and patient rounding, I genuinely believe my hands-on experience during my internship has effectively prepared me; ensuring patient safety amidst the organized chaos of surgeries and collaborating with professionals on comprehensive plans undoubtedly fosters a sense of shared purpose.

During my internship, I contributed to over thirty procedures, and I found myself energized by the palpable camaraderie in the operating room; coordinating with case managers and nurses, I crafted tailored care plans resulting in noticeable improvements in patient satisfaction.

Watching patients leave healthier than they arrived serves as my motivation, sparking a deep sense of pride; practicing BLS with swift responses in emergencies has instilled resilience, proving I can rise to the occasion even amid challenging situations.

I admire Health First Care's mission of delivering quality medical services to Southern Oregon residents, and I aspire to blend my effortless adaptability into your esteemed team, promoting an environment where patient care flourishes.

Thank you for considering my application.

Sincerely,

Luciana Bowers
